

Coal Mine Situation To Be Examined

CALGARY (CP)—The situation in Alberta and E.C. coal mines will be investigated immediately by two commissioners appointed by the Federal Department of Labor as the latest development in the mining situation in this district, which is threatened with a strike as a result of the recent vote taken by more than 8,000 members of the United Mine Workers of America.

Settlement Soon

OTTAWA (CP)—Early government action seeking settlement of a dispute of Queen Charlotte Island loggers and their employers was expected here today. Appointment of a mediating commission is under consideration.

Dr. Kergin and Wife Missing On Launch

PRINCE RUPERT (CP)—Widespread search by sea and air was under way this afternoon for the 56-foot motor launch Full Moon. Increasing anxiety was felt for the safety of Dr. William S. Kergin, Mrs. Kergin and two children, Mary Margaret Bulger and Peggy Pullen, who were aboard.

Prisoners Released

OTTAWA (CP)—Rt. Hon. Malcolm MacDonald, United Kingdom High Commissioner to Canada, said today he had learned a substantial proportion of British prisoners of war in Italy have been released.

Pacific Council

WASHINGTON (AP)—Members of the Pacific War Council, representing the nations actively engaged in the war in the Pacific, met with President Roosevelt today and afterward said they had reviewed the general situation in that theatre. Sir Ronald Campbell, British charge d'affaires, told newsmen "it looked all right."

Patrol Halifax Trams

HALIFAX (CP)—The navy shore patrol henceforth will place two stalwarts on every streetcar running between the naval dockyards and downtown Halifax during evening hours. Decision came after numerous complaints of sailors using abusive language, refusing to pay fares and smoking in the cars.

Lescot Comes to Ottawa

MIAMI, Fla. (AP)—Elie Lescot, President of Haiti, made a fleeting stop here while en route to Ottawa, where he will be entertained by the Canadian government before going to Quebec to receive an honorary degree of doctor of laws from Laval University. Arriving by clipper plane, he left a few hours later for Ottawa traveling by train.

Pope Resumes Audiences

LONDON (AP)—The Swiss radio said tonight Pope Pius XII resumed his usual audiences to-day in Vatican City.

'Ask Removal of Consul

VANCOUVER (CP)—The Housewives' League of B.C. will appeal to federal authorities to remove the Spanish consulate at Vancouver to the interior "in the interests of the safety of our armed forces." Members at a meeting expressed concern the consul occupies space in Vancouver's Marine Building, which overlooks the harbor.

Germans Will Shiver

NEW YORK (AP)—The BBC said today that severe restrictions had been placed on the use of coal throughout Germany.

As reported by U.S. government monitors here, the broadcast said no public buildings in Germany, except hospitals, will be heated this winter. No coal will be released for heating private houses until a date to be announced.

He Robbed Blind Men

REGINA (CP)—The story of how a Weyburn man obtained more than \$15 from blind operators of cigar stands in Regina by buying cigarettes with \$1 bills and asking for change for \$5 today was related in police court by Police Inspector Duncan McDougall. The man, Ralph Alexander Beaton, 23, pleaded guilty to four charges of false pretences and was remanded until Saturday.

275,000 Bond Buyers In B.C., Fifth Victory Loan Objective

B.C. and the Yukon are expected to oversubscribe their \$120,000,000 quota in the Fifth Victory Loan, by a substantial amount, according to a statement from George Kidd, chairman for the division on the National War Finance Committee.

The campaign to raise that total, \$10,000,000 above the figure set in the fourth loan, will open Oct. 17 and continue three weeks. The aggregate amounts to one-tenth of the complete national quota.

Of the \$120,000,000 set for the B.C.-Yukon division, \$49,000,000 is expected from the general public, \$46,000,000 from large applications from corporations and \$25,000,000 from national subscriptions which include insurance companies and other large corporations with branches in this province which are credited with a percentage of such sales.

The Fourth Victory Loan quota for the general public was \$45,000,000, but a total of \$49,081,100 was attained.

In view of the fact the fifth loan calls for a minimum \$10,000,000 overall increase, officials of the War Finance Committee have faith that the "small buyers" will once again substantially oversubscribe.

QUOTA SUBDIVIDED

Sub-quotas have been allotted to each of three sections of the general public. These sections are: Armed forces, \$1,900,000; employees of factories and large offices, operating under the pay-

roll savings plan, \$12,000,000; the remainder of the public—householders and housewives, employees of small establishments, \$25,100,000.

In the Fourth Victory Loan armed forces purchased \$2,204,300 in bonds.

The payroll savings plan, whereby workers in large plants and offices form their own internal committees and canvass their fellow employees, produced \$10,142,600.

A special "V" flag will be awarded to those establishments where the employees, over a six-months' period, save 12½ per cent of the payroll in Victory Bonds and War Savings Certificates, with 90 per cent of the workers participating. Where 15 per cent or more of the payroll is saved, three stars will be affixed to the flag.

STEP UP PACE

Mr. Kidd emphasized the need to step-up the pace in the fifth loan, saying the objective called for sales to 275,000 individuals.

With employment at full tide, payrolls passing former levels, personal incomes at all time highs, farm income in B.C. up, with bank deposits at a high level and the majority of citizens familiar with the value of Victory Bonds as investments and savings reserves, he declared the task of exceeding previous records should not be too difficult.

He warned against any let-up through complacency which might arise from good news from the military fronts.

Finschhafen Battle Nears End; Japs Suffer Heavily

ALLIED HEADQUARTERS, SOUTHWEST PACIFIC (AP)—The bloody battle for Finschhafen roared toward its finish today, with Australian soldiers exacting a heavy toll among the Japanese defenders and the supporting bases of the enemy for 300 miles to the northwest along the New Guinea coast bombed into impotence.

More than 60 planes were destroyed at Wewak by Allied bombers and fighters Monday. Three tankers and four merchant ships, just arrived at Wewak with supplies which could have been intended for overland movement south, were blasted to the harbor bottom.

The coastal road leading from Wewak down to Finschhafen was strafed at Hansa Bay by Allied fighters.

Less than a mile north of Finschhafen, veteran Australian ground troops struck hard at Japanese positions on high ground, inflicting heavy casualties.

Other Australians have fought their way to the banks of the Hebe Creek west of Finschhafen. The enemy's air and supply base, separated by only 70 miles of water from Japan's strategic island holding of New Britain, is virtually encircled.

Headquarters said Wewak was heavily bombed and also hit with 160,000 rounds of ammunition Monday for an hour and a half by more than 200 raiders. Fifty planes were destroyed on the ground, some of them fighters transformed into wreckage as they tried futilely to get into the air.

Twenty got aloft. Eight were shot down for certain, and three others probably. Three raiding Mitchells fell prey to intense enemy anti-aircraft fire. All the other Mitchells, Liberators and escorting fighters returned to base, some damaged.

Haircut Price Rise Rejected By Board

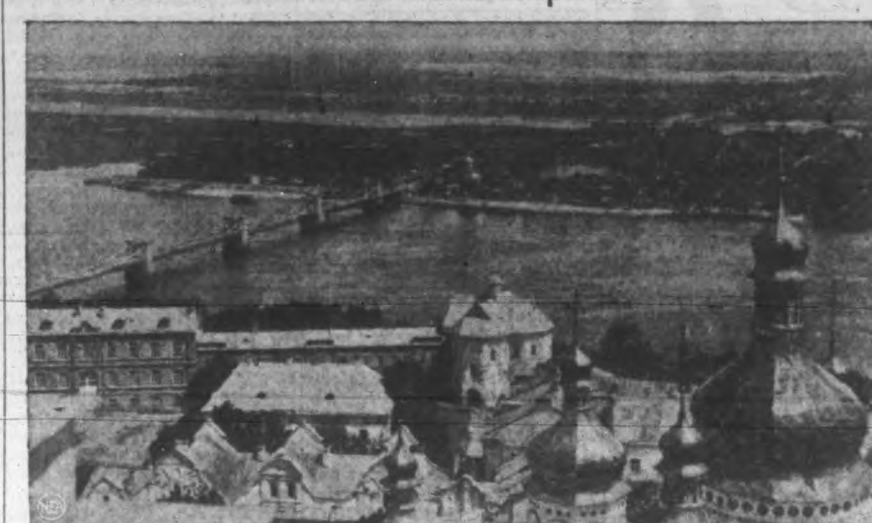

Application by barbers for a flat increase of 25 cents in price of hair-cutting was refused today by Services Administration, War-time Prices and Trade Board. Current charges for hair-cuts in B.C. are: 25c, 35c, 40c and 50c.

The petition was presented by a representative group of B.C. barbers. The Prices Board, in rejecting it, pointed out that any rise in operating costs has been offset by larger volume of business, and added that the object of W.P.T.B. regulations is to keep costs stabilized.

Al Principle, chairman of the petitioning barbers, expressed disappointment and said that a mass meeting of barbers will be held to consider the board's refusal.

James Green, secretary of the Barbers' Union here, said that two months ago Victoria barbers asked the Prices Board for permission to raise the price of certain barber services, but were refused. Consequently, they are not pursuing their request at the present time.

Kiev: Russians Return to Ukraine Capital

Kiev and the Dnieper... The Russians can see the gilt church domes.

Russians Capture Kremenchug, Trap Germans In Pocket East of Dnieper

LONDON (AP)—Soviet forces captured the town of Kremenchug on the east bank of the Dnieper River between Kiev and Dnepropetrovsk, the Moscow radio announced late today.

Seizing of the last great German stronghold on the east side of the middle Dnieper closed the escape gap for the German forces below Poltava. Both railroads from the Poltava region to Kremenchug already had been cut, and many German troops were reported inclosed in the pocket.

The broadcast, recorded by the Soviet monitor here, quoted an order of the day by Premier Stalin.

Capture of Kremenchug paves the way for a westward surge of Soviet forces across the 1,000-yard wide Dnieper, carrying with them an obvious threat to German concentrations on the western bank behind Dnepropetrovsk to the south, also under siege by the Red Army troops.

While the situation around Kiev, less than 200 miles to the northwest on the great bend of the Dnieper, was comparatively static, with the Russians consolidating their positions on the east bank across from that great German defence bastion, Soviet armies far to the north were plunging forward in a movement that threatened the early collapse of Germany's upper Dnieper line.

A Moscow bulletin recorded the capture of more than 1,000 villages and towns Tuesday in this drive into White Russia. Already the strategic Gomel-Vitebsk railway line is within range of Red Army siege guns.

German Troops Driven In Disorder

The Soviet communique declared German troops were falling back in disorder between Vitebsk and Gomel, junction of five railways which lies 200 miles to the south. Vitebsk was the main objective of this determined Red Army advance, and the Russians said 300 villages were taken during the day's gains of six to 12 miles in the direction of the city. Fall of Vitebsk would imperil German lines extending northward to Leningrad, as well as opening the way for a drive on the Baltic states.

On the extreme southern end of the eastern front, remnants of the German forces in the Caucasus apparently were in headlong flight from the Tanan Peninsula across Korch Strait to join

the Nazi Crimean garrisons, whose position likewise was becoming more precarious as the Russians extended their advance along the northern coast of the Sea of Azov to the gates of Melitopol.

Black Sea Warships Shell Retreating Nazis

Airmen of the Black Sea fleet, Moscow said, were blasting the retreating Germans. Two freight boats and several landing barges were declared sunk.

German commentators, broadcasting over the Berlin radio, frankly recognized the peril to the German lines. Russian troops were filtering across the Dnieper at widely scattered points, they acknowledged. Capt. Ludwig Sertorius, discussing what appeared to be preparations for a new German retreat west of the Dnieper, said: "German armies will be established on a new front which has outstanding advantages for the defenders."

Great Counterattacks Staged By Germans

MOSCOW (AP)—Unleashing concentrations of troops and tanks in the battle for the Dnieper River, the Germans counterattacked strongly today in a bid to maintain their bridgeheads on the eastern bank.

Front line dispatches said the enemy, holding favorable positions, was launching 10 to 12 counterattacks daily with powerful air support. The Communist

Party newspaper Pravda reported that at one point a Russian army was put in a "critical situation" at one time, but Soviet artillery came to its relief.

No further progress was reported immediately in the directions of Zaporozhe and Dnepropetrovsk, two major objectives on the lower Dnieper.

840 Miles Per Hour

U.S. FIGHTER BASE, SOMEWHERE IN ENGLAND (AP)—Second Lieut. Robert H. Knapp of Norwick, N.Y., was believed today to have achieved a speed of approximately 840 miles an hour in a dive during an airfight over Emden, Germany, last Monday in a P-47 Thunderbolt fighter. Previously official record was "more than 780 miles an hour."

No Divorces

REGINA (CP)—When an air force man from England marries a Saskatchewan girl while he is training in the province, the courts of Saskatchewan have no jurisdiction to grant a divorce, it was made plain here by Mr. Justice George E. Taylor.

The judge dismissed a divorce action brought by an Estevan woman and said he would deal with the case more extensively when he set out his reasons for dismissal.

Allies Expected To Enter Port At Any Hour

ALLIED HEADQUARTERS, NORTH AFRICA (AP)—Allied troops were only a few miles from Naples today and news of an entry into the Italian metropolis was expected any moment.

The 5th Army had driven the Germans from their last mountain positions above Salerno and was pursuing the enemy on the plain of Naples.

The Germans, routed out of the mountain strongholds in six days of heavy fighting, were in general retreat, leaving the Allies in complete possession of the Sorrento Peninsula, which separates the Bay of Naples from the Gulf of Salerno.

Naval Base In Allied Hands

Castellammare, important naval base on the southern shore of the Bay of Naples, also fell quickly into Allied hands as the Germans withdrew in a flight that may not cease until they reach the river Ventura line, well north of Naples.

In London the Press Association said it had learned authoritatively that British troops had entered historic Pompeii, at the foot of smoking Vesuvius and only 13 airline miles from the heart of Naples.)

The breakthrough on the extreme western end of the front extending across Italy from coast to coast was accompanied by a general advance on the entire 8th and 5th Army line.

Troops on the 5th Army's right flank smashed their way six miles northward against crumbling enemy opposition and were within seven miles of Avellino, road and rail junction which is the key to inland communications east of Naples.

The capture of Avellino would constitute a threat to any German effort to make a new stand anywhere east or south of Naples.

Montgomery's Men Wipe Out Salient

The British 8th Army, including the Canadian 1st Division, meanwhile wiped out the deep salient on its western flank, previously reported, and established a straight line between San Angelo and Maffi, while along the Adriatic, Gen. Montgomery's forces stormed northward from Margherita di Savoia and occupied the town of Zappanetta on the Gulf of Manfredonia, due east of the great Foggia air base.

British troops on the extreme southwest end of the Allies' front began the final shove against the enemy in the mountain line north and northwest of Salerno and encountered the bitterest kind of fighting at the town of Sala, which already had changed hands a number of times in recent weeks of the furious struggle.

This time Allied troops seized it for keeps and swept on triumphantly. The Germans, realizing any further attempt to make a stand in that area would be futile, began to retreat.

Reports from the front emphasized the enemy's withdrawal was orderly, and there was no suggestion the Allies were taking any large numbers of prisoners.

UNDER FIRE ON SALERNO BEACH—On the bloody beach of Salerno, where Allied invasion forces braved hailstorms of German fire from the heights above them, reinforcements pour ashore from their landing craft, ignoring the bullets that whizz past and the screaming shells that crash nearby. (Signal Corps photo) — he instinctively ducked and covered up when a shell burst too close for comfort.

'Sense of Urgency'

LONDON (AP)—After a tour of an aircraft factory in the Midlands, where Spitfires are being made, Donald M. Nelson, chairman of the U.S. War Production Board, declared "there is a great sense of urgency here. That is the message I shall take back to America."

163,829 in Ottawa

OTTAWA (CP)—The city of Ottawa now has a population of 163,829, Assessment Commissioner Blyth MacDonald said today. The figure is 5,248 above the population of the city proper last

BATTLEFIELD BABY—First baby to be born at Allied Field Hospital in Italy during this war is shown with her mother, Therese Russo, and nurse Lieut. Doris Dale. Two days after being brought to the hospital with shrapnel wounds she gave birth to the child. The baby was nicknamed "K Ration Tessie" as the box she is using as a bassinet is a K ration box. Canadians Destroy 3 Nazi Flying Boats

OTTAWA (CP)—Members of an R.C.A.F. long-range fighter squadron of the coastal command in Britain recently destroyed three German flying boats over the North Sea in one day, two of the planes being knocked down by pilots on their first operational sortie, and the third by one of the squadron's flight commanders, R.C.A.F. headquarters said today.

The three fliers were F.O. Sydney S. Shulemson of F.D. Sydney, F.O. Ernest Keefe of Wainwright, Alta., and Sqdn. Ldr. L. de la Haye of Vancouver. The three enemy machines were Blohm and Voss 138 three-engined flying boats, and they were caught by Beaufighters on reconnaissance. Shulemson was on patrol with Sqdn. Ldr. de la Haye when a Junkers-88 long-range reconnaissance machine was sighted. The Beaufighters went after it and chased it into a cloud. Then the Canadians sighted a BV 138. Shulemson gave it a burst of cannon and machine gun fire and it went flaming into the sea. Fifteen minutes later, a second German flying boat was spotted and de la Haye attacked, sending it down in flames. The same afternoon, Keefe and his navigator, W.O. B. G. Steed of Windsor, Ont., were patrolling the North Sea when they sighted three BV 138's flying in line astern. They are credited with destroying one of them.

Robt. McCutcheon, 90, Dies in Calgary

CALGARY (CP)—One of the original members of the Northwest Mounted Police, Robt. McCutcheon, 90, died Tuesday at the home of his daughter, Mrs. Margaret Ranson, following a brief illness.

Born in Cornwall, Ont., April 7, 1853, he joined the N.W.M.P. in May, 1874, and started a long trek westward. There were many historic events in the colorful life of the pioneer policeman. He was the first white man to shake hands with the famous Indian warrior, Sitting Bull, who had crossed into Canada following the Custer massacre in 1876.

He served with the maintenance department of the city of Medicine Hat for 10 years prior to his retirement in 1935, when he moved to Calgary to reside with his daughter, Mrs. Ranson. His passing now leaves only two original members of the N.W.M.P. in Alberta. They are Maj. Fred Bagley of Banff and Capt. Parker of Medicine Hat.

Surviving Mr. McCutcheon are six daughters, Mrs. S. Oldcroft, Edmonton; Mrs. Ranson, Calgary; Mrs. John Gott, Windsor, Ont.; Mrs. Fred Ellis, Clearwater, B.C.; Mrs. Gertrude Rutherford, Vancouver; Mrs. Hugh Johnston, Windsor, Ont., and one son, John McCutcheon, Edmonton.

Liberals Want Mr. King At Peace Table

Nova Scotia Senator Elected Chief of National Federation

By C. R. BLACKBURN

OTTAWA (CP)—With a new executive and a new program, the National Liberal Federation today began a period of organizational activity after being virtually inactive since the 1940 Dominion election.

The special meeting of the federation's advisory council and more than 300 additional members registered as non-voting delegates, completed a two-day meeting Tuesday night. A series of resolutions were adopted but not made public. It was intimated they would be consolidated in a single program which will form the basis of the federation's educational campaign in the coming months.

NEW PRESIDENT

All the meetings were closed to the press and public, but an official spokesman said the resolutions might be made public later. Senator Wishart Robertson of Halifax, 52-year-old former member of the Nova Scotia Legislature for Shelburne County, was the unanimous choice as president.

Senator Robertson's father and grandfather also represented Shelburne County in the Nova Scotia Legislature. For several years the presidency has been occupied in an acting capacity, first by Senator A. K. Huggess of Montreal and latterly by State Secretary McLarty, who organized this meeting.

It was the first national meeting since before the outbreak of war, but henceforth they will be held annually by virtue of an amendment to the constitution making annual meetings mandatory.

Other officers are J. A. Blanchette, member of the House of Commons for Compton and Quebec party whip in the House, and Mrs. S. C. Tweed, Ottawa, vice-presidents; and Gray Turgeon, member of the House of Commons for Carleton, honorary secretary. English and French-speaking secretaries will be appointed by the executive.

FULL CONFIDENCE

The meeting voted confidence in Prime Minister King and expressed the desire that he remain in a position to guide Canada's war effort through to victory.

2 Liberty Ships Each Day in Month

PORTLAND, Ore. (AP)—Henry J. Kaiser's original quickie yard, Oregon Shipbuilding Corporation, has achieved a new Liberty ship production record—two ships per day for September.

But his panting workers didn't pause for even a deep breath as the John G. Brady, the yard's 266th Liberty and its 22nd this month, splashed into the Willamette River Tuesday. Edgar F. Kaiser, general manager of his father's Portland yards, had told them two ships from each of the yard's 11 ways this month would set a record that would go unchallenged from World War II.

The workers were doing their best to make certain—by trying to complete another two or three in time for launching before the month runs out.

The Brady was named for the fifth governor of Alaska.

Robt. McCutcheon, 90, Dies in Calgary

CALGARY (CP)—One of the original members of the Northwest Mounted Police, Robt. McCutcheon, 90, died Tuesday at the home of his daughter, Mrs. Margaret Ranson, following a brief illness.

Born in Cornwall, Ont., April 7, 1853, he joined the N.W.M.P. in May, 1874, and started a long trek westward. There were many historic events in the colorful life of the pioneer policeman. He was the first white man to shake hands with the famous Indian warrior, Sitting Bull, who had crossed into Canada following the Custer massacre in 1876.

He served with the maintenance department of the city of Medicine Hat for 10 years prior to his retirement in 1935, when he moved to Calgary to reside with his daughter, Mrs. Ranson. His passing now leaves only two original members of the N.W.M.P. in Alberta. They are Maj. Fred Bagley of Banff and Capt. Parker of Medicine Hat.

Surviving Mr. McCutcheon are six daughters, Mrs. S. Oldcroft, Edmonton; Mrs. Ranson, Calgary; Mrs. John Gott, Windsor, Ont.; Mrs. Fred Ellis, Clearwater, B.C.; Mrs. Gertrude Rutherford, Vancouver; Mrs. Hugh Johnston, Windsor, Ont., and one son, John McCutcheon, Edmonton.

and to represent Canada at the peace table.

Some changes in the constitution were made at Tuesday's meeting, designed to give the federation a new purpose and widened field, particularly to encourage the political activity of the younger people.

The membership will be opened to other groups, including representatives of young Liberal organizations, to effect the general purpose of a new constitution clause which follows: "It shall be the prime duty of the National Liberal Federation to foster study and research into social, economic, financial and political matters particularly in their bearing on the postwar period, and, for that purpose, create and organize study and research groups on as wide a basis as possible."

Spokesmen for the party said all the resolutions adopted were "of a forward nature," and that "there was no looking backward at all." They said the program proposed was not designed to win an election but to work for the general betterment of Canada and to win the war and the peace.

The resolutions were said to have dealt with social security, reconstruction, labor relations, agriculture, fisheries, lumbering and mining, among other things. One resolution called for better relations between capital and labor and a wider recognition of the rights of labor.

The only resolution texts made public were those paying tribute to Prime Minister King, and the cabinet and the acting executive of the federation which arranged this first meeting of the advisory council since the war.

The resolution of confidence in Mr. King was moved by Premier Patterson of Saskatchewan, and spoken to by other provincial premiers and some delegates. It expressed "complete confidence" in Mr. King as leader, appreciation of his leadership and the federation's belief that Mr. King's statesmanship was needed to lead the nation to final victory and to represent Canada at the peace table.

Mr. King, who was re-elected honorary president, and members of the cabinet, entertained the delegates at the dinner hour. More than 400 were registered for the meeting, representing all provinces.

Chicago Board Busy After Winnipeg Halt

CHICAGO (AP)—Suspension of trading in wheat futures at Winnipeg was regarded here today as a possible factor in future broadening of market activities in the wheat pits of the United States, since they now are the only ones in the world that are open to free speculative trading.

Other than this effect, traders, to whom the action at Winnipeg came as a distinct shock, believed the situation still too confusing to interpret in light of the domestic market.

The immediate effect of the announcement was to touch off a flurry of activity Tuesday on the Chicago Board of Trade, with most prices sharply higher.

Strength in the Chicago market was due to closing of spreads between this and the Winnipeg Exchange, Chicago wheat having been sold against purchases in the Dominion, and traders were inclined to believe the Winnipeg action would not have much more—if any—immediate effect on market prices here.

B.C. Fliers Win D.F.C.

LONDON (CP)—The Air Ministry today announced award of the Distinguished Flying Cross to F.O. Clarence E. Robin of Hazelton, B.C.; F.O. Eric T. Batchelor of Kamloops, B.C., and P.O. Tex Probert of Moose Jaw, Sask. Wing Cmdr. James R. Whelan of Saskatoon and Bathurst, N.B., received a bar to his D.F.C.

Calgary, Edmonton Share House Conversion

OTTAWA (CP)—The Dominion government has set aside \$500,000, for housing conversion projects aimed at relieving wartime shortages of living accommodation in the Halifax, Montreal, N.B.; Saint John, N.B.; Edmonton and Calgary areas.

The order-in-council was published today in Canadian war orders and regulations.

These new allotments of funds, along with earlier allotments for Ottawa, Hamilton, St. Catharines, Ont.; Brantford, Ont.; Toronto, Montreal, Quebec, Vancouver and Victoria, raise the government's housing conversion program to about \$2,000,000. For Calgary, Edmonton and adjacent municipalities the allocation is \$250,000.

R.C.A.F. Fliers Honored By U.S.

AN ALEUTIAN BASE (AP)—Field headquarters of the U.S. army's 11th air force have announced award of the Air Medal to 10 officers of the R.C.A.F.

The Canadian airmen, all fighter pilots, were attached to the 11th air force and the awards were for participation in air attacks on Kiska before it was abandoned by the Japanese.

Those cited for skillful airmanship and courage and devotion to duty were:

Ft. Lt. Dufferin W. N. Wake, western air command, Vancouver, B.C. (posthumous); Sqdn. Ldr. Bradley R. Walker, London, Ont.; P.O. R. M. Bell, Hot Springs, Ark.; P.O. N. H. Hobbie, Rosnoke, Va.; Ft. Lt. R. S. Cox, Winnipeg; Ft. Lt. A. W. Rose, land, Vancouver; F.O. L. E. Cochran, Ste. Marguerite, Que.; F.O. R. F. Gairraith, Shelburne, Ont.; F.O. W. M. McLean, Campbellton, N.B.; F.O. David McDuff, Trafalgar, Ont.

Back Payments On First Wheat Sold

OTTAWA (CP)—Consideration is being given to arrangements under which prairie farmers who delivered 1943 wheat between Aug. 1 and Sept. 28 will benefit from the increase of 35 cents a bushel in the initial price, effective Tuesday, it was learned today.

Under the new wheat policy announced by Trade Minister MacKinnon, the price to be paid by the Canadian Wheat Board for wheat delivered to it was increased from 90 cents a bushel, basis No. 1 northern at Fort William, to \$1.25.

Officials said only a limited quantity of prairie wheat was delivered between Aug. 1, start of the 1943-44 crop year, and Sept. 28.

The increased board price for prairie wheat was not expected to affect eastern wheat values. Officials said no great quantity of eastern wheat is being marketed this year, as it is needed for farm use and for bakery purposes. When it is sold, the farmer usually obtains the ceiling price of \$1.26 a bushel, since the ceiling has become in effect the floor.

Vickers Strikers Urged to Return

LONDON (CP)—Union officials today urged 9,000 striking engineers at the Vickers-Armstrong arms factory to return to work, after a national arbitration tribunal had failed to support the strikers' claim to higher pay. The workers have been on strike two weeks.

Meanwhile, 8,000 miners in Scottish coal fields remained away from work for a second day. They were protesting against imprisonment of a few fellow workers who had refused to pay fines inflicted for participation in an earlier, unofficial strike.

Thieves Lay in Fuel

SYRACUSE, N.Y. (AP)—Col. Joseph Bondy reported to police that 7½ tons of coal were stolen from his basement bin overnight.

Yugoslav King, Army Commander, Premier in Cairo

CAIRO (AP)—King Peter of Yugoslavia has arrived here from London with his staff.

(King Peter's departure from London was disclosed Tuesday in an announcement saying he was en route to the Middle East, but it did not indicate when he had left. His presence in the Middle East stirred speculation that events affecting the Balkans might be in the offing.)

The King reached Port Said aboard a British cruiser and motored to Cairo, where a villa had been prepared for him. The 20-year-old King was accompanied by his Premier and Minister of Foreign Affairs, Dr. Bozhidar Puritch. With their arrival, the seat of the Yugoslav government is transferred from London to Cairo.

Also accompanying the Yugoslav monarch was Gen. Zivkovich, commander-in-chief of that country's army.

Arrival of the King and his leaders coincided with the capture of Foggia in Italy, which, with its system of airfields, gave the Allies a key centre from which to strike in the air at the Germans in Yugoslavia.

The Greek government and King George of Greece likewise have moved from London to the Middle East, taking up their new headquarters some months ago. The moves are expected to make it simpler for both governments to direct the efforts of patriot forces in both countries, pending the time the Allies may recapture them.

Tennant Goes To Mossbank

CALGARY (CP)—Group Capt. D. C. Blaine, officer commanding No. 2 bombing and gunnery school, R.C.A.F., at Mossbank, Sask., has been posted to No. 2 training command headquarters at Winnipeg, it was announced today by No. 4 air training command.

Wing Cmdr. E. C. Tennant, formerly in charge of the R.C.A.F. station at Prince Rupert, B.C., will succeed Group Capt. Blaine at Mossbank. He will take over Oct. 2.

Wing Cmdr. Tennant is a permanent force man who won his wings with a flying boat squadron at Jericho Beach, Vancouver, in the early 20's. His family lives at Victoria, B.C.

'Co-operation Needed In New World' -Eden

LONDON (CP)—Looking forward to the British-U.S.-Russian tripartite conference of foreign ministers, Anthony Eden, British Foreign Secretary, advocates proceeding "by practice rather than by blue print" in plans for a future world order.

Addressing 6,000 women who met in national conference Tuesday at the government's call, Mr. Eden said:

"Given an agreement between the British Commonwealth, the Soviet Union, the United States and China, any schemes for regional organizations, security systems and so forth, can be worked out without too great difficulty."

He declared that without some agreement between the four powers, "not one of these projects" is likely to prove to be practical politics.

In welcoming the forthcoming conference, Mr. Eden said: "I hope one task for that meeting will be to examine and to decide upon methods for joint consultation and joint action between us all in peace as well as in war."

Citing the equal interest of women with men in foreign affairs, the Foreign Secretary said the country's first need in approaching foreign policy is a "wide measure of unity based on understanding," and, secondly, "firm belief in ourselves and the leading part we intend to play in the organization of peace."

The foundation on which British foreign policy must be built, he continued, is the strengthening

Marshall Fields Gets
\$75,000,000 MoreCHICAGO (AP) — Marshall
Field III Tuesday assumed pos-
session of a fortune evaluated at
between \$70,000,000 and \$75,000,
000 on the 50th anniversary ofhis birth and bought \$10,000,000
worth of U.S. war bonds.The riches Field received con-
stituted the residue of the estate
of his grandfather, Marshall
Field I, one of Chicago's pioneer
merchants. From the same
source Marshall Field III previously
had drawn an estimated
\$93,000,000—making an overall
total of at least \$163,000,000. The
staggered method of distribution
was outlined in the will of Mar-
shall Field I, who died in 1905.Attorney-General Warns
Of State ControlPRINCE GEORGE (CP) — At-
torney-General R. L. Maitland,
addressing the Prince George
Board of Trade Tuesday, warned
against unbridled state control,
declaring that once freedom of
life and enterprise was lost it
was seldom regained.There were some who believed
in state control and spoke freely
of an entirely new system but
offered no real solution to the
problems of the day. The At-
torney-General said that while he
agreed state control had its place
in overcoming monopolies and
distributing supplies such as
light, power and transportation,
he was against the turning over
of control of the people to a
bureaucracy.Three Political Parties
Tied In Popular SupportTORONTO—For the first time,
the Gallup Poll surveys of polit-
ical sentiment in Canada show
the Co-operative Commonwealth
Federation Party with as much
popular strength as either the
Liberal or Progressive Conserva-
tive Party.In fact, if an election were
held today, the latest poll shows,
it would theoretically end in the
three parties splitting the major
party popular vote three ways.Which party would get the larg-
est number of seats is, of course,
a separate matter.
Since January, 1942, the Gallup
Poll has made periodic surveys
of political sentiment in Canada,
and has shown certain definite
shifts in the way John Voter
thinks he would use his fran-
chise. Results of these surveys,
compared with the actual divi-
sion of the vote in the 1940 elec-
tion, is shown in the table below:

	Lib.	Pro.	C.C.F.	Bloc Others
1940	55	31	8	6
Jan. 1942	55	30	10	5
Sept. 1942	39	23	21	17
Dec. 1942	36	24	23	17
Feb. 1943	32	27	23	17
May 1943	36	28	21	15
June 1943	35	31	21	13
Today	28	28	29	15

Quebec's Bloc Populaire Canadian

Not polled as separate party

The New Democracy Party, which in the last three polls has
drawn 4 per cent of the national vote, is included in the "others"
column in the above table.Because modern opinion sam-
pling is subject to a margin of
error which has been kept within
about 4 per cent, the fact that
the C.C.F. Party is shown as
being 1 per cent point above the
Liberal and Progressive Conserva-
tive, does not necessarily indi-
cate that this order would prevail
if an election were held today.
The C.C.F. figure, which has
been growing almost continu-
ously in consecutive polls, risesin today's poll some 8 per cent
points, a fact which political ob-
servers will probably attribute to
prestige and publicity gained as
a result of this party's showing
in the August Ontario election.
In Ontario, the latest poll
shows the Progressive Conserva-
tives with a slight edge over the
other two parties in terms of
popular vote—an increase since
the August provincial election:

	Liberals	Progress	Conservatives	C.C.F.	Others
26%	40%	32%	2%		

In the province of Quebec, the
Bloc Populaire continues to tie
with the Liberals for popular
support, each of these two
parties coming up with 33 per
cent of the Quebec popular vote.Because Bloc Populaire support
is largely confined to Quebec,
the 33 per cent figure becomes 9
per cent of the national total.West of the Ontario-Manitoba
boundary, the poll figures show
that the C.C.F. are leading the
Liberals and Conservatives for
popular support.

	Liberals	Pro.	Cons.	C.C.F.	New Dem.	Others
23%	23%	41%	11%	2%		

It should again be stressed
that these figures do not consti-
tute a forecast of what will hap-
pen in the next federal election.
They merely show what wouldhappen if a flash vote, without a
campaign of any kind, were
taken today—and if every voter
voted.

By Prowler in HomeATLANTA, Ga. (AP) — Henry
Heinz, past president of Kiwanis
International, was shot to death
by a prowler in his home Tues-
day night. He was vice-president
of the Citizens' and Southern Na-
tional Bank of Atlanta.Patrolman W. N. Miller said
the 63-year-old banker's son-in-
law, Dr. Bryant King Vann, a
dentist, was wounded critically in
an exchange of gunfire with po-
lice who were investigating the
slaying. The patrolman said Dr.
Vann and the officers apparently
mistook each other for the in-
truder.

Heinz was past potentate of the

Coupons for Honey

OTTAWA (CP) — Preserve
coupons which are already valid
but which have not been used
may be used in the purchase of
honey, molasses and syrups on
the new increased scale which
will become effective Thursday,
the Prices Board said.This ruling applies to coupons
D-1, D-2 and D-3. Coupons D-4
and D-5, which were not sched-
uled to become valid until Oct.
15, now may be accepted on or
after Sept. 30. The valid date of
other preserves coupons will,
however, not be changed and the
next coupons, D-6 and D-7, will
become good Nov. 11.Atlantic Shrine, and president
and director of the Atlanta Ath-
letic Club.Today's War
AnalysisBy DE WITT MACKENZIE
Associated Press War AnalystCapture of Foggia in southern
Italy — great communications
centre and focal point of a baker's
dozen up-to-date airdromes—rep-
resents one of the major tri-
umphs of the Mediterranean war.Its possession will permit the
Allies to unleash a fresh tornado
of bombing and fighting planes.
First off, it should greatly ex-
pedite the conquest of the Italian
peninsula, for it will go far to-
wards breaking the back of Ger-
man resistance there. An early
development should be Nazi eva-
cuation of the hotly-contested
Naples region.

LONGER RANGE

But our insights can be raised
to much more distant horizons.
From Foggia we can reach into
Germany to vital centres which
heretofore have been difficult to
bomb.Italy isn't the only theatre to
produce sensations, however, for
the Russians have broached a
new operation which may be a
blockbuster. That's up on the
Leningrad end of their flaming
front.The Russians, as part of their
great offensive against the Nazis,
are beginning an operation which
apparently is calculated to be the
pay-off for Hitler's crime against
Leningrad. In the capture of the
strategic city of Smolensk and
the continuing drive westward,
the Red Army is giving a fascinat-
ating display of tactics.One Russian force is headed
northwestward along the Smol-
ensk-Vitebsk-Dvinsk railway to-
wards the little Baltic state of
Latvia, only 200 miles away.
Other Russian contingents are
pushing southwest, in a turning
movement against the German
line. If the Muscovites have the
reserve strength to develop this
movement, it will cut off the
Hitlerites in that whole northern
zone which has its apex at Len-
ingrad. It also will place Finland
in refrigerated isolation.

HIMMLER IN LATVIA

Of course, this drive is in its
infancy and predictions, there-
fore, are out of order. It may or
may not come off. However, its
danger has been recognized by
Berlin, for a little one-line news
dispatch from London reports
that Himmler the hangman, Hit-
ler's Gestapo chief, has arrived
in Latvia. Himmler rushes where
trouble threatens.And what of Finland? She's
feeling very sorry for herself and
wants to get out of the mess she
is in. Her premier, Edwin Link-
omies, said the other day that she
wants to withdraw. She would
like peace with Russia on her pre-
1939 independence and territorial
status. Well, if the present Rus-
sian drive is carried through to
its finality, Finland will take what
Moscow wants to hand her—and
"like it."

Significance of Foggia

EVEN ADOLF HITLER WILL AGREE with Mr. Roosevelt that the capture of Foggia by the British Eighth Army was an almost unparalleled strategic triumph for the Allies in Italy. For when the Fuehrer ordered the erection of great new munitions factories in southern Germany and Czechoslovakia he had every reason to suppose that their output would not be seriously interfered with by raids from the air; they were fairly well out of bomber range. To be sure, Britain's long-distance craft dropped their visiting cards on the sprawling Skoda works at Pilsen fairly early in the war; but those rare forays were more spectacular for their ambitious intent than for the material damage they wrought.

By the seizure of the main airfield at Foggia, surrounded as it is by a dozen establishments to accommodate fighter planes, the Anglo-American command in the Mediterranean theatre will be able to extend its bombing schedule to include the whole of southern Germany, Czechoslovakia, and all the Balkan states. It will naturally take a little time to repair local damage and to assemble the requisite number of squadrons before the new program can be initiated. But this will be small comfort to the Fuehrer; as he contemplates the industrial wreckage of the Ruhr Valley, the ruins of other cities in the northern and central sections of the Reich, he will register on his mind a fairly accurate concept of what is now in store for the remoter regions of production. In other words, the latest victory of General Montgomery's men has ended the immunity which the enemy's reserve supply bases have enjoyed for the last year or so.

The possession of Foggia, furthermore, is important for the accommodation it affords to the Allied air forces for their general campaign against the satellite states of south-eastern Europe. British, Canadian and American bombers—apart from the attention they will henceforward give to numerous war industries—will find excellent targets in all the channels of communication upon which the enemy depends for the continuation of his campaign in Italy and southern Russia. And visits to the great oil refineries at Ploesti in Rumania can be carried out with less risk than attacks on Berlin and other areas of the Reich proper. From the new airfields, therefore, will spread a fan of destruction to those areas which had been counted upon to make up for the loss of production elsewhere.

Niggardly Pay

CANADIAN CHARWOMEN ARE PAID from \$4 to \$4.50 a day, plus carfare and lunch. Clergymen engaged in home mission work in the Canadian West draw the princely sum of three dollars a day, with no extras. These facts furnished the essence of a complaint which Dean C. E. Riley brought to the attention of the synod of the Church of England in Canada at its meeting in Toronto recently.

Three dollars a day, or \$21 a week, is indisputably an income inadequate to maintain a living standard in keeping with the place a clergyman is expected to fill both in the church and in the life of his community, especially if he is married. Members attending the synod rightly declared the scale to be "a disgrace to Canada" and urged that the minimum stipend for the clergy in Western Canada be \$1,200 a year, plus \$25 a month for transportation. Bishop Sovereign of Athabasca was well justified in saying he would go on strike against appointing any more men to charges in the far north until living allowances were raised and the "miserable retortories" improved.

For a young man to fit himself for office in the church calls for costly years at college. More often than not, this involves a hard struggle on his part and sacrifices on the part of his family. It is discouraging to realize that after such preparation he will receive a salary less than that of an unskilled laborer. But it is well for the church itself that these conditions are being brought to light, and it is particularly to the point that the laymen of the church should be made aware of them. Because the reflection is not upon the devoted young men who are willing to endure such treatment in order that they might carry on their chosen work, but upon the people he ministers to and upon the denomination as a whole.

A down-at-the-heels clergyman is a pathetic spectacle and the sooner the layman realizes that the responsibility is his, the sooner there will be hope of it being corrected. Members of the church demand that their clergy be well educated and expect them to look the part they play in the community. It is therefore the duty of the laymen to see that they provide them with subsistence in keeping with their qualifications and positions. On any basis, clergymen should be as much entitled as other professional men, or, for that matter, any skilled or unskilled worker, to a comfortable and dignified standard of living.

One would think it was bad enough for the Germans to have Hitler, without going out and getting Mussolini.

Strange Convolutions

SOME EXTRAORDINARY STATEMENTS have appeared in the Vancouver Sun recently under Columnist Elmore Philpott's name. Here is a sample:

"How smart are Canadian newspaper owners? That is a question which any well-informed observer might well ask today. For—with a few notable exceptions—the newspapers are not only getting themselves out on the end of a dangerous limb, but they are meanwhile busy sawing off that limb behind them."

Mr. Philpott based the foregoing on the fact that the majority of the newspapers in Ontario opposed the C.C.F. in the recent provincial elections. He considered this an "unbusinesslike-lack of foresight." Four days later the Sun, on its front page, devoted two columns of space to tell Mr. Philpott and its readers that "newspapers rarely lose public confidence simply because they call their shots fairly and confine their 'hysterics' to their editorial columns." Our contemporary argued:

"Mr. Philpott then gingerly proffers his prize question while nicely restraining from involving himself. When and if Socialist governments take power in Canadian provinces and find newspaper columns not open to fair presentation of both sides of the argument, many of the progressives who have had most experience in the political fight in Canada, believe that one of the first necessities will be to expropriate, or otherwise socialize, at least one important newspaper in each large centre."

The Sun thinks its columnist "gets into rough company" when he hints at a "kept press" solution. Mr. Philpott, however, is nothing if not versatile. Here is an extract from his "As I See It" contribution to our contemporary's issue of Monday:

"After the last war Canada was still a mere colony of England's. But now we are in a position of double colonialism. We are pushed around as much as ever by Downing Street. But now we have another boss—the State Department of Washington, with its wires to Wall Street and the Vatican."

The above—which, of course, is a fantastic statement—was part of an argument seeking to prove that "it is impossible" for Mr. King to accede to the request of the rank and file of the Liberal Party to postpone the holding of a general election for at least a year. But the Prime Minister has evidently found it possible to do just that.

Mr. Philpott, of course, has every right to espouse the C.C.F. cause. He has every right to continue his dislike of Mr. King; nor is it likely the Prime Minister will lose much sleep on this score. And we do not recall that Mr. King objected in public to the two-man campaign to oust him from the Premiership on the theory that "the only man fitted for the leadership of Canada at this moment is General McNaughton." This was the key-note of a crusade launched in the Hotel Vancouver in March, 1942, by Mr. Philpott and Mr. Hertel LaRoque, ex-secretary of a former Mayor of Montreal.

It was not surprising that this little trial shot at Fascist technique was laughed out of court as the prize political joke of 1942. It challenged the fundamentals of our democratic procedure—even the freedom of expression which Mr. Philpott enjoys in the Sun. It may, nevertheless, explain a good deal.

Soldiers' Life Insurance

RECENTLY A CONTROVERSY HAS arisen as to whether the families of service men who die in the line of duty are better protected in the United States than in Canada. This discussion has arisen because of the fact that service men in the United States can buy up to \$10,000 life insurance at low cost. However, a comparison of the protection given to families of service men in the United States and Canada reveals that it is about the same.

In Canada, the widow with no children of any service man who dies abroad is entitled to an annual pension of \$720. Provisions are made for children at the rate of \$15 a month for the first child, \$12 for the second, and \$10 a month for each additional child. Pensions are normally paid for boys up to 16 years and girls up to 17 years.

Somewhat different provisions are made for widows of service men who die within Canada. In that case, it must be proved that death was due entirely to the service. However, irrespective of whether the service man dies in Canada or abroad, the protection is granted to his widow and children without any monetary expense to himself.

In the United States, on the other hand, pensions are lower than in Canada. However, each service man can purchase life insurance at low cost up to \$10,000 for his dependents. Hence, while the system of protecting families of service men differs in both countries, they afford approximately an equal amount of protection.

Increase in Railway Income

THE SHARP INCREASE IN THE RATE of business activity and in the production of war materials has had a favorable effect on the earnings of the Canadian railway systems. During the first seven months of the present year, gross earnings of the two lines, namely the Canadian National Railways and the Canadian Pacific Railway, reached the record high sum of \$413,189,000. This compared with \$411,623,000 at the bottom of the depression in 1933.

It is quite evident that so long as hostilities last and so long as the Canadian national economy continues to operate at a peak, the volume of traffic will be large and the earnings of the railroads will be high. Both systems are taking advantage of the present prosperous period to reduce their outstanding indebtedness. This will have a favorable effect on their financial position in the postwar period, since it will reduce the amount of interest which they have to pay on their outstanding obligations.

Loose Ends

FLYING ROUND THE WORLD

SO MANY FOLKS have flown around the world of late that only the passengers themselves find anything very thrilling about such trips, and they become pretty blasé after the second or third trip.

Because of the war, civilians, however willing to pay the cost, can not step in and buy tickets for some far corner of the world as a matter of routine. But those with genuine business can always arrange to fly to any out-of-the-way corner on short notice in much safety and relative comfort.

It was not thus on April 6, 1924, when eight army flyers set out from Seattle in four planes specially designed and built for the venture by a young man named Donald Douglas.

There were a major, a captain, three first lieutenants, two sergeants, and one civilian with the temporary rank of second lieutenant. It was their assignment to fly something more than 25,000 miles around the world. Nobody, up to that time, ever had flown around the world.

On Sept. 28, 1924—more than five and a half months later by elapsed time, during which they had been actually in the air 363 flying hours—two of the planes, piloted respectively by Lieut. Erik H. Nelson and Capt. Lowell H. Smith, landed back at Seattle. They had covered 26,345 miles. With Nelson was Jack Harding, civilian. With Smith was Lieut. Leslie P. Arnold.

The other two planes had been forced down, one, piloted by Maj. Frederick L. Martin, in Alaska. The other, flown by Lieut. Leigh Wade, sank in the north Atlantic after flying across the Aleutians to Japan; across the East China Sea to Shanghai; thence by way of French Indo-China, Siam, Rangoon; across the Malay Peninsula to Burma; across the Indian Ocean to Calcutta; then to Bagdad, Constantinople, Paris, Vienna, Strasbourg, London, and Iceland on the way back toward the United States. He and Sgt. Henry Ogden, who was with him, were rescued.

The flight was possible only through intensive organization and preparation. Ground men went in advance to each projected landing spot and arranged for supplies.

On the basis of that then spectacular adventure, experts say that the astoundingly successful Air Transport Command in this war rests. Repair and weather bases, established along the route blazed by those flyers, make possible achievements in air transport which can hardly even be suggested until the war is over.

To the eight intrepid flyers democracies owe a lasting debt of gratitude.

NEW AUTOMOBILE DESIGNS

The motor car industry now lets it be known that radical changes in automobiles will be introduced slowly after the war, so that each can be tested out and sold to the public.

This is good-enough policy. But there is—let's be frank—another reason why innovations will be held back. Advances in automobile style and operation are made to sell cars. When the war ends, most machines will be obsolete, there will be a lot of war bond money, and millions of new cars can be sold without much promotion.

The real advances will come after post-war replacement has slowed down so that an inducement is needed to promote sales.

FOR THE NEXT PRESIDENT

Walter Lippmann in
New York Herald Tribune

Any man who is fit to be President of the United States in 1945, must, when his name is mentioned today, feel very humble indeed. For he will have the responsibility of making certain that our dead shall not have died in vain. That will be his task. The man who can hope to be equal to it will look upon it not as a dazzling ambition, but as a stern and awful duty.

He will have to comfort the stricken, bind up the wounds of war, show millions and millions the way back to private peace and personal security and redeem with honest measures the hopes they have paid for with their sweat, their blood and their tears. Much will be asked, much will be expected, of the next President of the United States.

The citizen, then, must shudder when he sees the hack politicians who talk as if they were calculating the odds on a horse race which they hope their favorite will win because the other horse breaks a leg.

WHAT IS PRIVATE ENTERPRISE?

From Financial Post

What really is "free private enterprise"? Sam O. Dunn, veteran industrial newspaper editor of the United States replies: "My definition of it is enterprise which (1) seeks and receives no subsidies from government; (2) is subjected to no subsidized competition by government; (3) if naturally monopolistic, is strictly regulated by government; (4) if naturally competitive, refrains from practices restricting competition, either voluntarily or because of government compulsion; (5) is not subjected by labor monopolies or government to wages and working conditions that prevent normal, healthy, function of private enterprise."

GEMS OF THOUGHT—IDEAS

"A heartfelt hunger for a great idea is the beauty and blessedness of life."—Jean Ingelow.

"Great ideas come when the world needs them. They surround the world's ignorance and press for admission."—Austin Phelps.

"The changing glow and full effulgence of God's infinite ideas, images, mark the periods of progress."—Mary Baker Eddy.

"Ideas go booming through the world louder than cannon. Thoughts are mightier than armies. Principles have achieved more victories than horsemen or chariots."—W. M. Paxton.

What Price Our Forests?

From report by Gordon Godwin, Victorian, now logging engineer for Quebec North Shore Paper Company, on a recent visit to Sweden, published in Pulp and Paper Magazine of Canada.

TO NO GROUP of Canadians is Sweden of greater interest than to us in the pulp and paper industry. We have so much to learn from Sweden. Start with the forests, and compare the careful management of this, our basic raw material, as practiced by the Swedes, with our own forest mismanagement. The Swedes understand a truth so simple that you will smile when I repeat it. But simple things are often those most overlooked, and I feel we do not fully appreciate the importance of our forests, do not realize how fast the margin of our timber is being pushed ever farther away, have failed to grasp the simple truth that without forests we have no forest industries.

You are thinking, "Well, you're

ROBINTEX
LONGER LASTING FABRICS
ASK YOUR TAILOR
Buy Only What You Need
GUARANTEED BRITISH MANUFACTURE

a woodlands man; instead of telling us, why don't you do something about it?" The answer is that due to failure to understand the complexity of problems of forest management and of logging technique on the part of our industry generally, the ranks of executive and professional personnel in our woodlands division are too thin to do all there is to be done.

But when the day comes, and I think it is almost here, that we see the necessity for greater attention to woodlands management, the experience of Sweden will be invaluable to us.

MADE IN CANADA

THE BATTLE OF, BY AND for the GUNS!

Without firearms, the victory cannot be won. Our men must face with equal or superior weapons the modern armed foe. And our men must have all they need. So the battle for guns—great and small automatic guns—grows in intensity, as the battle of and by guns rages hotter and fiercer.

Canadian workers in scores of factories are toiling day and night to produce these weapons. Great quantities are coming off the assembly lines—Lee-Enfield rifles, Bren guns,

Bofors anti-aircraft guns, Vickers machine guns, heavy anti-tank guns, trench mortars, light artillery, heavy field pieces, coastal defence cannon. What an inspiring battle for guns our men and women workers are fighting!

Six thousand men and women of the Bank of Montreal at hundreds of branches are co-operating closely in rendering to war-workers, war industries and our Government the special banking needs of war-time.

Vaudeville Story Coming to Atlas

Vaudeville, so long wrongly accused of being dead, is not only very much alive but it has a new champion.

Champion and chief defender of good, old-fashioned vaudeville as an entertaining institution is Gregory Ratoff, Russian-born, word-twisting, highly volatile picture director.

"All vaudeville needs right now," Ratoff contends, "is a little attention, appreciation and an artistic touch."

Ratoff is attempting to display all three things in his new Columbia musical film coming to the Atlas Theatre Thursday, "Something to Shout About." Not only has he headlined its production with such stars as Don Ameche, Janet Blair and Jack Oakie, but the whole story is based on the adventures of a group of performers in a theatrical boarding house. They make a whale of a success of a vaudeville show.

The glamour is supplied by Janet Blair with Ameche contributing the romance and Oakie, a dog act, "The Bricklayers," and a score of former variety comics to dish up the laughs.

RIO THEATRE

John Halliday, playing Katharine Hepburn's father in "The Philadelphia Story," now at the Rio, started his career in life as an engineer, but ended up an actor. In recent years he has divided his time between the stage and screen, being as well known on Broadway as he is in Hollywood. Among his stage hits are "The Circle," "When We Were Twenty-One" and "The Whip."

DOMINION THEATRE

Noted for his many striking portrayals on the screen, Charles Laughton is said to have the most dramatic and memorable of all in RKO Radio's gripping film of Nazi-occupied Europe, "This Land Is Mine," now at the Dominion Theatre.

Laughton's role is that of a browbeaten and fear-ridden

teacher who is inspired to lead his fellow-villagers in a courageous resistance to the invaders, after his experiences as a prisoner teach him the value of freedom.

Sabu Stars In 'White Savage'

The magic of Aladdin's lamp, a small portion of which Sabu must have absorbed somewhere along the mystic trail of film fantasies in which he has starred, seemingly still clings to the Hindu lad whose fame has spread the world over.

For in his latest picture, Universal's Technicolor production, "White Savage," which will open tomorrow at the Plaza and Oak Bay Theatres, Sabu again essays the role of an unassuming but effective patcher-upper when misunderstanding threatens the romance of his co-stars, Maria Montez as Princess Tahia and Jon Hall as Kalee.

Quietly and in apparent innocence Sabu, as Orano, native boy of the princess' South Sea island domain, repeatedly manipulates affairs as he deems fit, and, as usual, his uncanny wisdom brings the lovers together in the end.

Very Likely NOT

GIVE GENEROUSLY

Eddy's

MODERN STORE FOR THE MODERN WOMAN

Very likely this is NOT quite the Coat you had in mind—and, on the other hand, it may be EXACTLY your idea of the Coat that you've been planning for these many weeks past. But the point is that we can't begin to show ALL the styles that are here to enchant you—this page FULL of illustrations wouldn't do that. We'd just like to make a little bet that at Eddy's we DO have your very Coat—just that one-and-only style, size, fabric, color, trimming, buttons, length, that is YOUR idea of the perfect Coat for autumn and winter, 1943. If not, it would certainly be surprising, for we'll definitely make another little bet (and certainly win it) that we have the largest selection of Plain and Fur-trimmed Coats in the city. And among them a wonderful selection of the better quality Raincoats, and those useful all-season garments with Zipper or Button-in Removable Linings, so popular in our changeable climate. And don't overlook the wonderful usefulness of a Separate Fur Collar to go with an Untrimmed Coat and equally useful for Suit or Dress. Yes, madam, the Coat of your dreams is at

EDDY'S — 1661 DOUGLAS — Opposite "The Bay"

tre, in which she is co-starred with Spencer Tracy, Miss Hepburn portrays a wife suspected of killing her husband. Her speech in her own defence is noteworthy both for its length and the actress' capable handling of it.

YORK THEATRE

Otto Preminger, the noted stage director and producer, wrote his first film role in 20th Century-Fox's picturization of Nevil Shute's great novel, "The Pied Piper," currently scoring a hit at the York Theatre.

Preminger's acting experience has been limited to one role on the stage, that of the Nazi consul in Clare Booth's play, "Margin For Error," which had a long run on Broadway.

Oddly enough, his role in "The Pied Piper" also called for him to portray a Nazi official. But this time he's a member of the Gestapo who provides some exciting moments for Monty Woolley, Roddy McDowell and Anne Baxter who are featured in the film.

Brazil, with vast deposits of bauxite and potential hydroelectric power, is planning to produce aluminum to meet at least its own needs.

DOES INDIGESTION WALLOP YOU BELOW THE BELT?

Help Your Forgotten "28" For The Kind Of Relief That Helps Make You Rarin' To Go. More than half of your digestion is done below the belt—in your 28 feet of bowels. So when indigestion strikes, try something that helps digestion in the stomach AND below the belt.

What you may need is Carter's Little Liver Pills to give needed help to that "forgotten 28 feet" of bowels. Take one Carter's Little Liver Pill before and one after meals. Take them according to directions. They help wake up a slower flow of the 3 main digestive juices in your stomach AND help—help you digest what you have eaten in Nature's own way. Then most folks get the kind of relief that makes you feel better from your head to your toes. Just be sure you get the genuine Carter's Little Liver Pills from your druggist—15¢.

CAPITOL THEATRE
Raymond Massey played his greatest farewell scene for his last motion picture for the duration. There have been many other farewells in his career on both stage and screen, but none was so poignant as this present one. He was Captain Steve Jarvis of the new Liberty cargo ship Sea Witch, bidding goodbye to Ruth Gordon, his screen wife, and to his neighbors before taking off on the perilous voyage by convoy from America to Russia with a cargo of war supplies. "Action in the North Atlantic," which also stars Humphrey Bogart, is now being shown at the Capitol Theatre.

KLEENEX Announces NEW WARTIME ECONOMY PACKAGE

300 single sheets size 6 3/4" x 9" same high standard of quality

150 pulls per package 50 more than before at the same low price!

The new Wartime Economy Package is the same low price for 100 tissues (150 pulls) as the old 200 tissue package (100 pulls)

✓ For more than a year, the Canadian Kleenex factory has worked day and night, seven days a week, to turn out for you the maximum amount of Kleenex with existing equipment... equipment which cannot be expanded in wartime.

✓ The new Kleenex Wartime Economy Package contains 50 per cent more tissues in the smaller size, a size quite adequate for all general Kleenex uses.

✓ If you continue to use the same number of applications of Kleenex as always, you'll find the new Wartime Economy Size Kleenex lasts half as long again!

✓ Remember, Kleenex remains tops in quality—softer, stronger, more absorbent—the favourite tissue of Canadians everywhere!

Temporary Help Policy

A policy ruling from the City Council covering temporary help engaged to replace men who have left city departments to join the forces will be sought by the fire wardens as the result of discussions Tuesday.

Sore, Chapped Lips Prevented

Roughness Quickly Relieved

Sore, chapped lips make life miserable in cold weather. Painful and unsightly, their cracked, rough surfaces are easily infected. Don't run this risk! Prevent chapping with Lypsil. Its wonderful emollient action protects the delicate membranes, keeps the lip tissues from becoming dried out by cold, biting winds, so that lips stay smooth and soft in all weather. When lips are already chapped, Lypsil gives quick relief, seals the wounded membranes against dangerous germs, hastens natural healing. Get Lypsil at your store today and use it regularly. Sold everywhere in handy stick form.

LYPSYL END CONSTIPATION THIS NATURAL WAY!

Millions now take Simple Fresh Fruit Drink instead of Harsh Laxatives!

It's lemon and water. Yes!—just the juice of 1 Sunkist Lemon in a glass of water—first thing on arising. Taken first thing in the morning, this wholesome drink stimulates bowel action in a natural way—assures most people of prompt, normal elimination. Why not change to this healthful habit? Lemon and water is good for you. Lemons are among the richest sources of vitamin C, which helps combat fatigue, helps you resist colds and infections; also supply useful amounts of B. They alkalize, aid appetite and digestion. Lemon and water has a fresh tang, too—clears the mouth, wakes you up! Try this grand wake-up drink 10 mornings. See if it doesn't help you! Use California Sunkist Lemons.

gest the issue be referred to the finance and legislative committee for investigation and a report.

The question has been raised in view of the fact men engaged on a temporary basis have, in many instances, been with the department some years now and wish to know their standing in relation to postwar employment and superannuation.

The wardens also discussed hours and rates of pay for fire alarm operators and remuneration to be granted any firemen pulled back for duty when they are offshift.

Ald. Archie Wills, chairman, presided.

New Concert Series To Bring 7 Artists

Hilker Attractions Ltd., which have presented to the concert public of Victoria most of the important musical events during recent years, take pleasure in presenting, as the opening attraction on their "Modernage Entertainment Series," the combination of Paul Draper, foremost of tap dancers, and Larry Adler, who has lifted the harmonica to the rank of concert instrument. These artists will appear at the Royal Victoria, Oct. 25.

These artists have astonished critics with their interpretation of Bach, Mozart and Handel. Their repertoire also includes much popular music.

Paul Draper has been schooled in the traditional ballet. Larry Adler has been soloist with the London Philharmonic Orchestra, and has played before the royal family. Other outstanding artists to appear on the series are: Vivian Della Chiesa, lyric soprano; Jan Klepura, Polish tenor of opera, concert and screen; Katherine Dunham and her dancers, and Anne Brown, soprano star of "Porgy and Bess," with Donald Dickson, popular baritone of concert, radio, and screen, in a Gershwin Memorial Festival.

ALERT BAY (CP)—Mrs. Norah Glendal, 34, Indian woman, was fatally burned Sunday as a result of an explosion when she poured coal oil in the kitchen range to start a fire. Her young child also was seriously burned.

A Black-Out For Gray Hair

Banish those graying tresses—give new youth, beauty, lustre to faded, dull, streaked hair. Take years off your looks and do it right in your own home with this economical gray hair recipe. You get a real professional-looking job at a fraction of the usual cost. Get from your druggist one ounce bay rum, one-fourth ounce glycerine, one box Oxley Compound. Mix in half-pint of water, or druggist will mix for you at small cost. Simply comb into hair as directed. Gray, faded, streaked hair is given a beautiful, soft, lustrous, natural-looking color that will not wash out or rub off. Does not stain the scalp or affect permanent. Try the money-saving Oxley recipe today! You will soon forget you ever had gray hair and will look years younger.

Car Overturns Twice

Going out of control Tuesday night on Shelbourne Street, north of Ruby Road, a car driven by A.B. B. L. Baldwin, left the road and overturned twice. Neither Baldwin nor D. L. Patterson, passenger in the car, were injured, although the vehicle suffered considerable damage. Saanich police attended the accident.

G. A. Burbidge Dies

HALIFAX (CP)—George Arnold Burbidge, 73, dean of the Maritime College of Pharmacy, member of the faculty of Dalhousie University and former chairman of the council of the Canadian Pharmaceutical Association, died in a hospital here Tuesday after a month's illness.

Blind Gardeners Display Produce, Help Red Cross

Blind gardeners of Greater Victoria, who have worked hard in their Victory Gardens all summer, displayed their wares in annual competition Tuesday and sold their potatoes and flowers and gave the proceeds to the Red Cross.

The competition and sale were held in Red Cross rooms on Government Street. E. W. White of the B.C. Department of Agriculture, was judge.

Mrs. Elizabeth Watling, Helen Road, won first prize and the cup donated by the Canadian Institute for the Blind with her plate exhibit of six potatoes. Second was Frank Whiting, 2183 Windsor Road, and in third place came C. Leeson, 95 Obed Avenue.

In the flower competition, Frank Whiting, with chrysanthemums, was in first place, followed by E. Webber, 2001 Cameron, and Ernest Penny, 109 Hampton.

Mr. Whiting, besides being an ardent gardener, is doing his best to encourage gardening among blind people. He donated the three prizes for the flower section. First prize was an order for 'mum cutting'; second, Green Mountain potatoes, and third, cash.

The competition and sale was held under auspices of the Victoria Women's Auxiliary to the Canadian Institute for the Blind, with Mrs. Thos. M. Knox, Mrs. Harry Barnard, Mrs. H. Weldon and Mrs. Jack Clay in charge.

Fall Flower Show Next Week-End

Victoria Horticultural Society reports entries are coming in well for the fall flower show at the Crystal Garden Friday and Saturday. Those who have not sent in their entries should do so at once at 607 Fort Street.

Victoria residents and visitors are assured of a splendid show this year. The chrysanthemums have never been better and the auction which will be held Saturday night will afford the chance of securing some of the finest flowers in the city. Most of the vegetables will be sold at the same time.

The show promises to be so

Bulkley Journal Presented to B.C. By Gen. O'Connor

Friendship between Canada and the United States was further cemented Tuesday when Brig.-Gen. Jas. A. O'Connor, U.S.A., commanding U.S. Northwest Service Command, presented to the B.C. government a copy of the journal and letters of Col. Chas. Bulkley, who led an historic telegraph adventure through northern B.C.

The presentation was made at an official government luncheon at the Empress Hotel and Hon. Herbert Anscomb, Minister of Public Works, acting for Premier John Hart, who is in eastern Canada, received the photostatic copy which will be placed in the Archives. Also presented was a piece of the red, white and blue ribbon which was cut at the official opening of the Alaska Military Highway last November. It was a personal gift from Gen. O'Connor to Premier Hart.

Hon. H. G. T. Perry, Minister of Education, presided at the luncheon. The Union Jack and the Stars and Stripes held places of honor, and the King and the President of the United States were toasted, as the company sang O Canada, God Save the King, the Star-spangled Banner and My Country 'Tis of Thee.

CENTURY'S RELATIONS

B. A. McKelvie, president of the B.C. Historical Association, proposed the toast to Gen. O'Connor and the visitors—Col. K. B. Bush, chief of staff, Northwest Service Command, and Capt. R. Neuberger, aide to Gen. O'Connor. Mr. McKelvie referred to the amicable relations that had existed for a century between Canada and the United States.

Col. Bush, replying, said: "We of the U.S. army are grateful for this cordial and generous goodwill—the northwest command has an important mission in the Canadian northwest. Much of this mission centres in B.C."

large this year that the committee has found it necessary to secure additional room to accommodate the classes in the centenary committee's victory garden contest. Fred Waller, convenor of the staging committee, will appreciate assistance from members at 7 Thursday at the Crystal Garden.

ARE FRILLS WORTH A MAN'S LIFE?

We all are patriotically familiar now with the many war restrictions. We know, too, that the frills to which we are accustomed MUST BE ELIMINATED, if we are to concentrate on winning the war. New Method is backing the war effort wholeheartedly, but the frill-cutting problem does not involve lowering the quality of our work. Our work is as expert as ever.

NEW METHOD
DRY CLEANERS LAUNDERERS DYERS

Since coming to the north many of us have been impressed with the great diversity and richness of B.C. As American officers in an Allied country we have been treated with all the friendship and neighborliness which human goodwill can muster.

Gen. O'Connor referred to the friendly relations which have existed between the U.S. army and the B.C. government.

"British Columbia is the land bridge which ties Alaska to the continent," he said.

He recalled much of the early history of Alaska, the Yukon and British Columbia, and told of the work of Col. Bulkley. He said he hoped the B.C. government would accept the Bulkley journal and the piece of ribbon "as tokens of our appreciation and gratitude for the friendship which we have received from the people and

government of the great province of British Columbia." Mr. Anscomb said the U.S. army had proved the best friend the public works department of B.C. had had.

"When we go north we find they are not only making a great contribution to international goodwill, but also to the development of this province," he said, referring to "the great work you of the U.S. army have done in British Columbia."

Officers of the Canadian navy, army and air force attended the luncheon and talked with the visiting U.S. army officers.

American tanks and trucks on battlefields are protected from attack from American aircraft by the coded use of colored smokes released from tiny canisters in red, orange, green, yellow and violet hues.

Fredrickson's Hockey History

Son May Repeat?

By CHARLIE EDWARDS

TORONTO (CP)—Some of the old-timers out west will give you Frank Fredrickson as the outstanding centre in the history of hockey. Of Icelandic descent, Frank served with the Royal Flying Corps, then the R.A.F. in the first Great War. He began his hockey career after the war was won, captained Winnipeg Falcons to the Allan Cup and Olympic championship in 1920, then turned professional with the Victoria Cougars. He helped Lester Patrick's Cougars win the Stanley Cup in 1925. He moved up to the N.H.L. with Detroit, and later with Boston, and in his first year, 1926-27, finished fourth in scoring, just a point behind the great Howie Morenz.

Frank is back in uniform again—an R.C.A.F. flight lieutenant stationed at Calgary. And here's the point of this story: Frank Fredrickson Jr., just 18, has enlisted in the R.C.A.F. at Vancouver to train for air crew. Perhaps he'll come back from this rumour to become one of Canada's greatest athletes, just as his dad came back 25 years ago.

REAL MODESTY

Annis Stukus, Toronto Star sports reporter, is writing mys-

tery stories. Stukus did the story of the Balm Beach-Toronto Indians football game at Hamilton Saturday for his paper. He named a lot of guys named Joe among the players and he had this sentence: "Two touchdowns, a field goal and a convert accounted for Beaches total." Stukus didn't mention who did the scoring in Beaches' 14 to 3 victory but the other papers couldn't keep a secret. They said one guy got all the Beach points by himself—Annis Stukus.

Baz O'Meara of the Montreal Star has been named to a committee concerned with the selection of names for hockey's hall of fame. Therefore there's something semi-official about the list O'Meara published in his Montreal Star column as obvious choices for recognition—Tom Phillips, Lester Patrick, Joe Malone, Frank Nighbor, Frank Boucher, Aurel Joliat, Mickey MacKay, Si Griffis, Fred Taylor, Dit Clapper, Eddie Shore, Frank Clancy, Charlie Conacher, Percy Jackson, Chuck Gardiner, Clint Benedict, Hooley Smith and Nels Stewart.

BOWLERS MEET

A general meeting of the A.O.F. Carpet Bowling Club will be held at the A.O.F. Hall tonight.

Western Horses Pay Big Prices At Toronto Track

TORONTO (CP)—Two long-

shot invaders from western Canada—H. Cohen's Andean and S. U. Ross' Noble King—came home on the head end Tuesday at Woodbine Park.

Beaten a neck at odds of 46 to 1 in his last Toronto start, Andean moved swiftly through the money lane to win the first race in a tight fit from W. F. Edmiston's Depositor, victim of tough racing luck at the start. Andean returned \$19.75, \$8.10 and \$4.75 to team up in a \$257.50 daily double with H. C. Hatch's Royal, which just staved off Whittier Park Stable's Gover Mon in the second race.

The westerners clicked again in the sixth event when Noble King won a half-length decision over Gynfar worth \$22.65. In the seventh another western horse, M. Keith's George Corn, paid \$20.45 for place. Fred Schelke's Marny won the race.

NEW YORK RACING

NEW YORK (AP)—Rockingham Park had a crowd of 5,000 watching Lyle Phillips' Bunny Baby take the featured sixth race Tuesday in a photo finish from Jose Call Vidal's Paul Fry. Al Lamoureux's Boot and Spur, early pace setter, was third. Bunny Baby negotiated the

mile and sixteenth in 1.49, and paid \$20.80, \$8.20 and \$5.30. Rose Red, five-year-old mare owned by Mrs. W. Renard and ridden by Walt Warren, scored by a length and a half in Hawthorne's Melrose Park purse, covering the mile and a sixteenth in 1.46 1-5 and paying \$20 for \$2. C. U. Yeager's Pump Gun grabbed second and third win to Mrs. M. Well's Moselem.

Little World Series

INDIANAPOLIS (AP)—Geo. Trautman, president of the American Association, said Tuesday the first three games of the "little world series" between Syracuse and the winner of the association playoffs will be played at Syracuse, N.Y.

He said the dates would depend upon the length of the series between Indianapolis and Columbus. Syracuse won the right to represent the International League against the American Association winner by conquering Toronto.

The remainder of the best-of-seven series between the loops' play-off winners will be played at Columbus or Indianapolis.

NEW YORK (AP)—Harry Jeffra, former world featherweight champion, easily outpointed Davey Crawford, 124½, New York, Tuesday night in the eight-round main event which headlined the closing card at the Queensboro outdoor arena. Jeffra, whose home is in Baltimore, weighed 131.

Sports Mirror

By PETE SALLAWAY

BRITISH COLUMBIA's hockey leaders have finally come up with the brand new set-up for the coming season. The grand scramble finds Victoria with two clubs—Navy and Victoria Machinery Depot—in the new inter-city league. Other two local outfits of last season have gone to other parts, Army to Nanaimo, and the R.C.A.F. to the mainland.

Nanaimo gets a real break by having the crack Army outfit handed to them on a silver platter. When hockey was first talked about this fall it looked mighty like the up-island town would be out of the picture. Now they will have last year's Allan Cup runners-up as their home club. The Nanaimo fans are certain to welcome the Army boys with wide-open arms and they are certain to attract sell-out crowds. On top of that it is possible Dave Mackay will be playing defence for the Army club.

Victoria will be well represented in the circuit by the powerful Navy club and the V.M.D. The bluejackets, according to reports, are set to come up with a sweet hockey machine. We have been unable to find out just what new material the Jack Tars have on tap but it can be said the Navy will be strong contenders for the league championship.

The new league should prove popular with the fans in every city represented. It will provide the customers with intercity competition and in the case of Victoria will not result in crowds so many games into a short period as was the case last season. The V.M.D. will have to get busy and line up some new players if they hope to hold their end up in the league. The shipyarders are known to be negotiating with several well-known puckchasers and it is to be hoped they meet with success.

Jockey Alex Haller will remember the 1943 racing season as his toughest luck year. After losing the riding honors at the Hastings Park meeting by one winning mount to the veteran Gus Dye, the Kamloops boy was nosed out of the championship at the Willows by one point by little Willie Slocum, the Seattle apprentice.

Lot of the fans couldn't understand Monday just how Slocum and Haller were tied, when they thought the former should be four points on top. It all happened as a result of a ride by Slocum on Ascot Maid on the fifth day of the meeting. After the horse won it was found she was ineligible for the race and her owner received no share of the purse. As Slocum did not receive a winning jock mount the judges ruled he was not entitled to four points for the win, despite the fact the mare's number was posted as winning and the association paid off on her. It was a tough break for Slocum but he stepped out the last day and won despite the loss of those valuable points.

Canadiens Sign Three Amateurs

MONTREAL (CP)—Montreal Canadiens of the National Hockey League have announced the signing of Stan Pratt and Albert and Tony Lemay, all of whom played last season in the Ottawa City League.

Pratt and the Lemay brothers, from Winnipeg, have been well known in amateur hockey circles here for several years as members of Ottawa entries of the Quebec Senior Hockey League.

Pratt is a fast-moving defence man while the Lemay duo form a strong forward combination.

SWIM WINNERS

The second of the series of handicap swims was held at the Y.M.C.A. pool and Doris Rainey headed the girls and Joan Morgan was a close second, while in the boys' cup event, Don Smyth was the winner and S. McGinnis was the runner-up. Bill Turkington finished third and Jack Morgan was fourth.

DIZZY DEAN REJECTED

ST. LOUIS (AP)—Dizzy Dean, baseball's gift to radio, was rejected for United States military service at Jefferson Barracks Tuesday because of a perforated ear drum.

The one-time star pitcher, now a play-by-play broadcaster, suffered the ear injury several years ago.

The conifers of Mesa Verde National Park, in southwestern Colorado, are considered by experts to be the most sensitive, constant and precise recorders or registers through tree-ring chronology of variable precipitation in the southwest.

Dickey, Crosetti Still Thrilled By World Series

NEW YORK (AP)—Two of the

Yankees, catcher Bill Dickey and shortstop Frank Crosetti, will be playing in their eighth baseball classic when the Yankees collide with St. Louis Cardinals next Tuesday in the world series. They were with manager Joe McCarthy when he nabbed his first American League pennant in 1932 and have been lending a hand ever since.

For this reason the series might be expected to leave them in something less than a state of excitement, but both of them say they feel just like schoolboys giving their first recitation.

"I don't care who you are or how many world series you have been in, every one of them gives you a new thrill," said Dickey.

"A game in the series is different from any other game in baseball. You get used to ones you play every day, but you never get so you can come up to a world series without something fluttering inside of you."

Frank Peter Joseph Crosetti said he felt the same way.

"I don't suppose anything can match the thrill that comes with your first world series. But if anything can, it's getting into another series. They all do something to you."

Then with a grin, he added, "But I guess you ought to get a thrill out of it every year—for that kind of money."

Pensive, Boojiana Futurity Favorites

NEW YORK (AP)—The field for Saturday's \$80,000 Belmont Futurity began to shape up today as a 17-horse "rodeo," with Pensive and Boojiana as favorites.

These two—Warren Wright's solidly-built unbeaten filly and Lt. Col. Sonny Whitney's fast little lady—figure to fight it out for the big end of the bankroll on the "dope," but two brand new baby stars will get quite a play. They are Tambo, the son of Mr. Bones from Mrs. Payne Whitney's barn, who hung on for a head win in the futurity trial and George Widener's Platler.

Along with these two there will be Harry Lamontagne's \$5,100 yearling buy, Rodney Stone, who wound up second in the trial; John Merscher's Chicago-hope, Occupy, winner of the Washington Park futurity, and Be Nineteen, one of War Admiral's first sons, from Col. Ed Bradley's barn.

Leading bread-winner in the field is Occupy, full brother to last year's winner, Occupation. He already has a bank account of \$54,325. Boojiana, who grabbed the Matron Stakes last week, has \$18,005. Pensive, although unbeaten in two starts, hasn't had a crack at a big pot yet.

Midway in the game between Lancaster Red Roses and York White Roses, air raid sirens signalled a practice blackout. When the lights went on second base was gone—stolen.

Major Hockey Opens October 30

MONTREAL (CP)—The Mont-

real Athletic Commission Tuesday decided to send a telegram to authorities in Kingston—chosen as the site of Canada's hockey hall of fame—asking for a round-table discussion attended by all interested parties because the commission had "indisputable evidence" that the game originated here. Halifax has made a similar claim.

United States who were in high-priority employment, unless they could obtain the consent of their employers.

And, of course, any man in the age groups designated under the mobilization regulations won't even get near the professional ranks. In those classes are single men aged 18½ to 40, and married men aged 18½ to 30.

It was little more than a week ago that hockey officials got a "go-ahead" signal with Labor Minister Mitchell's announcement that "within certain limits" selective service would not interfere with the release of players to engage in the game this season.

There was a "but" in that announcement, however. It said limitations would be placed on players in either Canada or the

Cincinnati Cops Second Position

Dodgers Lose Pair, Slide Into Fourth

Before they shed their uniforms for the winter, St. Louis Cardinals may have reason to be glad that they clinched the National League baseball pennant before Cincinnati Reds became properly organized.

The Reds steamed into second place Tuesday, mathematically clinching it against any belated assault by sweeping a doubleheader from Philadelphia Phillies and running their latest winning streak to nine games.

The Reds have had a couple of six-game streaks earlier, but it took the late days of September for them to get really hot. They whipped the Phillies 4 to 3 and 2 to 0 with two seven-hit pitching performances by Ray Starr and Joe Egges.

The Reds' clinching of the runner-up spot was assisted by Brooklyn Dodgers, who dropped a doubleheader to Pittsburgh Pirates 5 to 2 and 4 to 2 and fell into fourth place as the Buccaneers took over third.

In the meantime Cardinals split a doubleheader with Boston Braves and did nothing to improve their prospects for next week's World Series with New York Yankees.

COOPER BEATEN

Mort Cooper, the Cardinals' ace pitcher, started the first game and was relieved in the sixth inning by lefty Harry Brecheen with the Braves ahead 4 to 3. Boston went on to win in the 13th 6 to 5 and the fact that another southpaw, Max Lanier, stopped the Braves in the second game 7 to 1 on six-hit hurling in the nightcap did little to camouflage Cooper's unsuccessful effort in the first game.

Chicago Cubs took two games from New York, definitely entering the Giants in the cellar 3 to 2 in 10 innings and 2 to 1.

New York Yankees were beaten 11 to 3 in their final conflict with Cleveland Indians, but all the score meant was that Martin Breuer would get a good rest during the World Series.

Manager Joe McCarthy gave Breuer his first starting assignment of the season and then sat in the stands to see what happened to his sore-armed right-hander. What he saw was Breuer giving up nine hits in less than five frames. The only pleasure for the Yankees was Joe Gordon's 15th homer.

Boston Red Sox trounced Detroit Tigers 6 to 1 and Philadelphia Athletics worked out on St. Louis Browns 8 to 3.

MONTREAL PROTESTS

MONTREAL (CP)—The Montreal Athletic Commission Tuesday decided to send a telegram to authorities in Kingston—chosen as the site of Canada's hockey hall of fame—asking for a round-table discussion attended by all interested parties because the commission had "indisputable evidence" that the game originated here. Halifax has made a similar claim.

United States who were in high-priority employment, unless they could obtain the consent of their employers.

And, of course, any man in the age groups designated under the mobilization regulations won't even get near the professional ranks. In those classes are single men aged 18½ to 40, and married men aged 18½ to 30.

It was little more than a week ago that hockey officials got a "go-ahead" signal with Labor Minister Mitchell's announcement that "within certain limits" selective service would not interfere with the release of players to engage in the game this season.

There was a "but" in that announcement, however. It said limitations would be placed on players in either Canada or the

Fairy Manhurst Captures Stakes

NEW YORK (AP)—Williams

Dupont's Fairy Manhurst, rank outsider in the betting, won the 51st running of the Lawrence Realization at Belmont Tuesday.

Taking over the lead after the field had gone a mile, Fairy Manhurst galloped home by five lengths over Havahome Stable's Eurasian, who took the place spot by three lengths over Mrs. Payne Whitney's Famous Victory. The betting favorite, Slide Rule, finished fifth.

Fairy Manhurst was clocked in 2.43 for the mile and five-eighths under Johnny Longden's handling and returned \$18.70, \$9.20 and \$3.80 across the board to his supporters in the crowd of 16,774. The victory was worth \$7,475 to the winner.

Earlier, Mrs. Whitney's Tambo became a threat for Saturday's \$80,000 Futurity by driving to a head victory in the six-furlong Futurity trial in 1.10, with Harry La Montagne's Rodney Stone second. Hooked up with Dustman and Broad Grin as an entry, Tambo was a \$11.60-for-\$2 shot.

Holiday Oct. 11

Hon. Geo. S. Pearson, provincial secretary, announced today the government would proclaim Thanksgiving Day, Oct. 11, a holiday under the Factories Act. Any factory wishing to operate on that day will have to obtain a permit in writing from the department of labor through the chief inspector of factories. Thanksgiving Day is a statutory holiday for shops and stores.

David R. Hurdle Fatally Injured In Car Accident

An inquest into the death of David R. Hurdle, 54, well-known lumberman, commercial traveler and sport enthusiast, will be conducted at Sands Mortuary at 10.30 Friday morning, Coroner E. C. Hart announced today.

Mr. Hurdle, who was superintendent of the Moore-Whittington Lumber Co., was fatally injured at 8 Tuesday night, when his motor car crashed into a standing streetcar at Government and Pembroke Streets. He died on arrival at Royal Jubilee Hospital.

Police reported Mr. Hurdle's car, apparently crashed into the standing streetcar as Motorman Archie Doherty, Royal Oak Post Office, was switching the car trolley to reverse the streetcar. Doherty saw the car approaching, and expected it to swerve, but instead the auto crashed into the streetcar.

No explanation of why the car struck the streetcar was given today. Police stated the lights on the streetcar were on at the time of the crash.

TRAPPED IN WRECKAGE

Force of the impact was such that the front portion of the auto crumpled up under the streetcar. A second streetcar was used to pull the automobile clear before Mr. Hurdle could be removed from the wreckage.

The radiator and grill of the automobile were driven back approximately three feet, and the engine block was tilted up in the front, the rear of the cylinder head being driven through the floor boards. The steering wheel of the car was broken, and police said one spoke entered Mr. Hurdle's neck.

Motorman Doherty was trapped in the damaged streetcar. He was uninjured.

Police attending at scene included Sgt. Tom Stevenson and Constables William Andrews, K. Hall, R. Davidson and Angus Munro of the city police. They were assisted by Cpl. Cecil Pearce and Constable Jack Hamilton of Saanich police, who were at the city police headquarters when the report of the accident came in.

WAR VETERAN

Born in Kent, England, in 1888, Mr. Hurdle lived at 1240 Fairfield Road. He served overseas with the P.C.C.L. during the First World War.

Beside being well known in lumber circles, he was a member of the United Commercial Travelers.

A popular member of the Gorge Vale Golf Club, he was its president last year and a former

club captain. Mr. Hurdle also was a member of the Victoria and District Golf Association.

A keen bowler he was one time president of the Canadian Legion Fivepin League and an active member of one of the teams. He was also a director and sports chairman of the Tillamook Athletic Club.

Friends informed Mrs. Hurdle who was not at home at the time of the accident. Besides his wife he leaves two sons, Stoker Robert Hurdle, stationed at H.M.C.S. Naden 2; here, and David Roy Hurdle, R.C.A.F., training to be a navigator at Rivers, Man., and one daughter, Dorothy Irene, attending school here.

Perry Advocates Composite Education For B.C. Schools

Composite education—vocational, military and cultural—is the ideal foundation for B.C. schools, said Hon. H. G. T. Perry, Minister of Education, Tuesday night, when he addressed the B.C. Trustees' Association at the Empress.

He said there was some danger of over-emphasizing the necessity of vocational training. Children must be taught to use their hands, but not to the exclusion of all else.

"We must remember our schools should be neither trade schools or military academies," he said.

In speaking of the prospective change of educational finance to the provincial government, as recommended by the trustees, Mr. Perry said that if the government could take advantage of centralizing administration without sacrificing the benefits of local control, many educational problems, besides the financial one, would be solved.

"However, we don't want to see a bureaucracy in Victoria running education and replacing the work of school boards," he said, pointing out that he wanted nothing done to destroy the system of local government "of which you are so important a part."

Mr. Perry claimed that the dynamics of an enlightened public acts as stimuli to government in formulating policy.

"The deliberations of this conference," he said, "will have a definite effect, either directly or indirectly, on government action."

ACCOMPLISHMENTS

Speaking of the accomplishments of the department in their program of education for the past year, Mr. Perry noted the part-time education courses for children over 15 years, which he called the thin end of the wedge for postwar education; erection of dormitories for out-of-town students; provision for five trustees in case of consolidated districts; inauguration of sea cadets, similar to air cadets; addition of Spanish to the curriculum; lowering of Normal School fees from \$130 to \$50; abolition of summer school fees.

The inclusion this year of Home Economics as a major subject at U.B.C. was noted by Mr. Perry.

In postwar days, the government will be busy caring for returned men, so that those earning high wages now should make provision for their future themselves, he warned, adding that the government could certainly not guarantee men the same kind of employment or same wages as they have now.

SCHOOLS ENTERTAIN

F. G. Mulliner was chairman for the banquet, at which civic officials and school heads had been invited. Following the minister's address, a program of entertainment under the direction of H. S. Hurn was given by pupils of Victoria schools.

Presented by Sir James Douglas School, a one-act play, "Barren of the Door," opened the variety concert.

"Flags of Victory" displayed elaborate and effective costuming by pupils of Central Junior High.

Miss Betty Lynd Thomson and Miss Madlyn Stears contributed athletic dances, and the chorus from Victoria-High School gave a group of dramatized songs, assisted by Miss Evelyn Prisk, pianist.

Helps Morale

Ft. Sgt. Howard E. Day, R.C.A.F., son of Mr. and Mrs. F. Day, 1744 Coronation Avenue, who has been a prisoner of war in Germany following a raid over Cologne Feb. 26 last, has been promoted to warrant officer, second class, according to word received by his parents from Ottawa. Promotion is effective from June 1.

"News of my boy's promotion pleases me very much," said Mrs. Day this morning. "This is the sort of thing that helps to maintain the morale of the boys who are held in enemy prison camps."

A.R.P. ACTIVITIES

District No. 1, Saanich — The monthly meeting scheduled for Oct. 1 is canceled; all wardens requested to attend the exercises at the Willows School instead, 19.30.

TOWN TOPICS

An interesting program has been arranged for the Open Door Spiritualist Church concert this evening.

A. A. Baker was chosen president, and W. A. Mooney vice-president at a meeting today of the Junior Chamber of Commerce directors.

Bdr. Dick Thornton Potts, son of Mr. and Mrs. John Potts, 2316 Blanshard Street, has arrived in England, his parents have been advised by cable.

A grass and bush fire raged for more than an hour near Waltham and Tyndall Tuesday afternoon before Saanich firemen extinguished the blaze. There was no property loss.

A permit for a \$2,500 four-room single family home was issued by the city building inspector's department today to M. and W. Hutchison. The dwelling will be built at 2655 Belmont Avenue.

Thanks for the excellent welcome given Wing Cmdr. Guy Gibson, V.C., D.S.O., with bar, D.F.C. with bar, was extended to the city in a letter from Air Commodore E. L. MacLeod received at the City Hall today.

For two hours Tuesday afternoon Saanich firemen poured water on a grass and bush fire which threatened the home and barn of F. Shaw, Blenkinsop Road. Firemen went to the blaze at 4.38 and returned at 7.15. The fire burned over about two acres but there was no property loss.

John Selkirk, secretary, Canadian Legion, Nanaimo; Helen E. Wilson, North Galiano Island, and Kenneth D. McRae, deputy government agent at Fernie, were appointed by provincial order-in-council commissioners for taking affidavits, the latter in place of F. E. P. Hughes, who has joined the armed forces.

The Court of Appeal Tuesday reserved judgment in the Williamson-Slater appeal involving shares and interests in a hunting club in the interior of B.C. and proceeded with the appeal of Thomas R. Brown from a judgment of Judge Boyd, Vancouver, granting Viggo Laursen \$602.95 damages for injuries sustained in an automobile collision at the intersection of Homer and Robson Streets, Vancouver. The appeal is continuing.

Trustees Meeting Next in Kamloops

B.C. Trustees' Association will meet next year at Kamloops under David Hall, past president of the Vancouver School Board and newly-elected president of the B.C.T.A., it was decided at the final sitting in the Empress Hotel today.

B. A. Edwards, Kamloops, was elected first vice-president and Frank G. Mulliner, chairman of the Victoria School Board, second vice-president.

Members of the executive are: Dave Chapman, Kelowna; Leslie Crauford, Nelson; D. Brankin, Surrey; and Mrs. T. C. King, Richmond.

Provision that school boards provide free education for a total period of 12 years, not necessarily consecutive, in the public schools will be sought in a petition to the Minister of Education.

Compulsory education up to 15 years and part-time compulsory education up to 18 years was also approved.

Victoria Board sponsored a motion requesting that the Department of Education consult with military cadet authorities to work out a system of co-operation planned to avoid duplicating classes, due to shortage of teacher-officers.

A Saanich resolution was passed to petition a change in the pupil-teacher ratio to one teacher for each 35 pupils above Grade 1 and for each 30 pupils in Grade 1.

Rent Court Ends Its Activity Here

Rent court, bizarre child of wartime living, slipped into limbo today as Judge H. H. Shandley held his final sitting in the County Courtroom with bathnight problems still unsettled.

Henceforth, according to Judge Shandley's understanding, rent fixing activities will be the responsibility of the newly-created division in the rentals section of the Wartime Prices and Trade Board.

As a court of human relations the institution has known few equals here. To it came tenants with a grievance against landlords. To it came landlords with a grievance against tenants. The simple stuff, petty irritations of everyday living, found expression in the court in a way that mingled pathos with humor.

Today's sitting was one of the less spectacular crosscuts of an ordinary day in rent court.

An owner wished to raise his charges on a house because the tenant, who had undertaken to

Provincial Trustees Want Bible Study In School Hours

Deciding by overwhelming vote that study of the Bible and Christian principles become part of school curriculum, the B.C. Trustees' Association will petition the Minister of Education that such study be carried on during school hours and inside school premises.

During the course of presentation of resolutions Tuesday afternoon in the Empress Hotel, where the B.C.T.A. convention has been in session, three boards advocated some form of religious instruction or enlightenment in the schools, Nelson School District, Mission District and Burnaby School Board.

The previous day the association recommended posting of the Ten Commandments in the school rooms.

Thomas Fussell, Mission, spoke against the godlessness of the day, saying there is more need than ever of Christian training. Other speakers recommended short religious exercises, a short reading from Bible, without comment, a prayer and a hymn.

In support of the belief that Roman Catholics as well as those of Protestant faith would welcome this move, another speaker said one priest at least had been approached and was most enthusiastic. Another revealed that ministers have offered their services in the schools if adequate instruction is not available.

SUPPORT LAND TAX REFORM

Presenting the different angles of teachers and farmers in supporting the Educational Tax Reform Council, C. D. Ovans, assistant secretary of Teachers' Federation, said the former want progressive reduction in land tax for educational costs, while the latter want the total tax removed.

Mr. Ovans said that much research had convinced the council that the land tax was not equitable. Suggested recommendations were that the "provincial government shall establish a system of educational finance to provide equitable distribution on a just and uniform basis."

He said that, speaking on behalf of the teachers, he felt that as a body they had done much to point out the inadequacies of education; that some other group, farmers, or municipal officials, should investigate the question of educational finance.

Although in favor of cost of education being borne by the provincial government, Mr. Ovans cautioned against the possibility that all local control might be taken away.

MINIMUM STANDARD

"Parents should have some part in planning the education of their children," he said. "We believe the province should set minimum standards of education, but that local boards should be able to raise them."

R. F. Blandy, representing the Union of B.C. Municipalities, said the total cost of education in the province is \$11,000,000, of which \$7,000,000 comes from local taxes—80 per cent of this in municipalities. He recommended some immediate step be taken to shift at least \$2,000,000 to the province.

Other resolutions passed were: That the Minister of Education take necessary steps to establish adequate health units in all consolidated school districts to provide a special check on contagious diseases spread by traveling in school buses.

That the trustees petition the department to make a special grant to municipalities and school boards that pay cost of living bonuses to their staffs.

That the provincial government be petitioned to study the problems of juvenile delinquency.

That the Minister of Education be petitioned to amend the School Act so that in cases of truancy the onus of the proof of non-attendance or of attendance at any other class or school is shifted on to the parent or guardian.

That the minister be petitioned to amend the School Act to provide for compulsory education up to 15 years of age, and where such education is deemed advisable, compulsory part-time education up to 18 years of age.

That the Public Schools Act be amended to include a grant be

keep up the garden, was not making a good job of the project. A tenant, living in a single-room basement suite, complained of cold, said the only heat came from a three-ring gas stove, and stated bath water was inadequate. In reply the landlady said she could supplement the water supply with a heated kettle which was good enough for her other tenants.

Another landlady with several tenants explained bathroom facilities. "This lady," she said, "shares the bath with Mr. Armstrong." Five young women said cooking on a three-plate gas stove in the hall was unsatisfactory.

In the years of its operation thousands of cases have come before the judge for settlement. Today he sighed with some relief as the final session ended.

Community Chest Seeks Speed-up In Collections

Greater Victoria's Community Chest-Salvation Army home front campaign moved into the third day of its drive for \$85,000 today with \$7,397 turned in during the first two days of collections.

Workers were urged today to render aid and step up their efforts to bring in returns following a relatively slow start.

Contributing to Tuesday's collections were \$2,700 brought in by the special names division which has collected \$6,288 to date.

The business section raised its cumulative total to \$423.60 and the residential canvass had increased its aggregate to \$482.

The industrial division showed a total of \$168 for the two days, while government and municipal services had still to report.

DONATIONS ACKNOWLEDGED

Donations of \$25 and over were acknowledged by chest officials as follows:

Anonymous \$50, Anonymous \$50, Anonymous \$200, Sir Charles Bell \$30, Senator R. F. Green \$100, N. Addams \$25, C. E. Ellis \$25, Growers' Wine Co. \$25, Dr. George Hall \$50, A. R. Helter \$30, J. L. Mara \$150, Dr. H. M. Robertson \$100, Maj. Harry Walker \$25, B.C. Funeral Co. \$25.

Ryan-Hibberson Timber Co. \$100, Andrew Sheret \$100, Dr. M. J. Keys \$50, Catherine Renny \$105, Agnes Renny \$125, Royal Trust Co. \$100, S. Stephen \$100, Brown F. Storer \$100, Mrs. S. R. Benning \$250, Miss M. F. Dawson \$200, J. N. Hatch \$100, Hoyle-Brown Ltd. \$200, Douglas Hunter \$25, Miss M. G. Galt \$250, John Goldie \$36, Century Art Shop \$25, V. Sherman \$50, Household Finance Corporation \$35, McCarter Shingle Co. \$25.

A. E. Ames & Co. Ltd. \$100, Canadian Fairbanks Morse Ltd. \$75, Evans, Coleman & Johnson Ltd. \$225, Imperial Oil Ltd. \$100, Kelly, Douglas Ltd. \$100, W. H. Malkin Ltd. \$25, E. A. Morris Ltd. \$25, B.C. Sugar Refineries \$100, Neon Products Ltd. \$25, W. N. O'Neil Ltd. \$30, Storey-Campbell Ltd. \$30, Miss K. Agnew \$200, Senator G. N. Barnard \$400, Miss L. Galt \$400.

Maj. F. V. Longstaff \$30, Mrs. A. Morkill \$200, Anonymous \$300, Mrs. F. W. Hartley \$75, Mrs. A. W. Jones \$150, A. Johnson \$50, Mrs. S. J. Pearce \$150, Mrs. Marion Stevenson \$100, Mrs. W. C. Todd \$500, Canadian Industries \$100, Mr. and Mrs. L. K. Fisher \$50, Dr. John Macdonell \$100, Mrs. A. M. Moore \$25, Dr. A. H. Tanner \$25, Mrs. G. F. Wilcox \$25, Mr. P. D. Sills \$25.

Y.M.C.A. Outlines New Season Program

Prior to the annual membership drive which will start soon, the Y.M.C.A., through its general secretary, Frank Paulding, is distributing a leaflet outlining the 1943-44 program, and pointing out the necessity for "Y" activities in wartime.

Physical fitness, it is claimed, is necessary for mental and spiritual health. Well-directed young people's activities are necessary to absorb the energy of boys and girls in the city, who would otherwise be at a loose end, and to check the increase in juvenile delinquency.

"Check the record," says the leaflet, "you will find old 'Y' boys active in every branch of the armed services, first at the finish line in athletic competitions, working efficiently in offices, industries and war production—but you will not find them in court."

The "Y" is well equipped with gymnasium, locker rooms, showers and swimming pool, and has a physical-fitness program that caters to all age groups. Archie McKinnon, physical director, is expanding a bigger enrolment for his classes this year.

Other activities will include public speaking classes, directed by Frank Paulding; So-Ed activities under the secretaryship of Helen Simpson, boys' clubs and hobby classes under the new boys' secretary, Archie Morrison, continued lodging and reading room service, and the continued operation of Macaulay Hut, focal point of activity and recreation in the Work Point-Macaulay area.

Uncle Ray

Bombs Fail to Halt China's Canal Traffic

The present war is doing great damage to the transport system of several countries, but China is suffering less in that way. The Burma Road has been blocked and the ocean ports have been taken by Japanese, but inside the country people travel almost as they did in past times.

China's chief ways of transport are by river and canal. Of course there are "war fronts" which are hard to pass, but travel still goes on behind the lines. It is hard to block a waterway by dropping bombs on it.

The Chinese have been slow about building railroads. There are some in the country, but not nearly so many as we might expect from the size of China.

For thousands of years the Chinese have been traveling up and down the Hwang-ho and other rivers, large and small. They also have made great use of the canals.

The city of Venice, Italy, has a famous waterway known as the "Grand Canal," but it is small when compared with the Grand Canal of China. The Chinese canal runs from Hangchow to Tientsin, and is about 1,000 miles long.

It is long enough to stretch from the northern end of Italy down to the toe of the Italian "boot," then on through Sicily and into Africa for a distance of more than 200 miles.

The first work on the Grand Canal seems to have been done close to 2,500 years ago. In the centuries which have passed since then it has been enlarged and made much longer.

China's chief ways of transport are by river and canal. Of course there are "war fronts" which are hard to pass, but travel still goes on behind the lines. It is hard to block a waterway by dropping bombs on it.

The Chinese have been slow about building railroads. There are some in the country, but not nearly so many as we might expect from the size of China.

For thousands of years the Chinese have been traveling up and down the Hwang-ho and other rivers, large and small. They also have made great use of the canals.

The city of Venice, Italy, has a famous waterway known as the "Grand Canal," but it is small when compared with the Grand Canal of China. The Chinese canal runs from Hangchow to Tientsin, and is about 1,000 miles long.

It is long enough to stretch from the northern end of Italy down to the toe of the Italian "boot," then on through Sicily and into Africa for a distance of more than 200 miles.

The first work on the Grand Canal seems to have been done close to 2,500 years ago. In the centuries which have passed since then it has been enlarged and made much longer.

The Grand Canal runs through a thickly-settled part of northern China. Hundreds of bridges, some of them made of stone, have been built across it.

The Grand Canal of China ranks as the longest in the world, but there are many other large ones in China. The country has a network of canals, and they have a total length greater than that of all the rest of the canals in the world.

The rivers and canals of China carry goods between cities, and also serve another purpose. Thousands of families have small houseboats on them.

Many of the houseboats are of the sampan type. They are from 15 to 50 feet long, and a family may have no home except the sampan on which it rides up and down a waterway.

Lonely Wife

Answer—Give the stork a chance. Wait three or four more years, anyway, before you abandon the idea of not having children of your own. But if you adopt a child you need not be afraid you won't love it. Most people seem more foolish about adopted children than real parents are over their own youngsters.

Among installations built by Canadian army engineers on Gibraltar was a great underground hospital.

Dorothy Dix:

"Dear Miss Dix: Why is it that a fellow can be in love with a girl and, although she likes him better than any other boy, she cannot learn to love him? And why is it that a girl who is a wonderful character can be in love with him and he cannot learn to love her?"

"Why is it that a man can know a girl who is fine and pretty and interesting and easy to get along with, just the girl he ought to marry, one he wishes he could love, and yet he can't do it while he is in love with a girl who he knows will make him miserable if he marries her?"
